The Art of Pictorial Composition Louis Wolchonok, 1969 Pictorial Composition and the Critical Judgement of Pictures Henry Rankin Poore, 1903 **The Photographic News**, 1896 **Lessons in Pictorial Composition** Louis Wolchonok, 1978 **Critical Reflections on Poetry and Painting (2 vols.)** Jean-Baptiste Du Bos, 2021-07-15 Jean Baptiste Du Bos *Critical Reflections on Poetry and Painting* first published in French in 1719 is one of the seminal works of modern aesthetics Du Bos rejected the seventeenth century view that works of art are assessed by reason Instead he believed audience members have sentiments in response to artworks Their sentiments are fainter versions of those they would feel in response to actually seeing what the work of art imitates Du Bos was influenced by John Locke's empiricism and in turn had a major impact on virtually every major eighteenth century contributor to philosophy of art including Voltaire Montesquieu Diderot Rousseau Herder Lessing Mendelssohn Kames Gerard and Hume This is the first modern annotated and scholarly edition of the *Critical Reflections* in any language *The Gestalt Theory Applied to Pictorial Composition* John Fabian Kienitz, 1933 *The Gift of the Face* Shamoon Zamir, 2014-08-14 Edward S Curtis's *The North American Indian* is the most ambitious photographic and ethnographic record of Native American cultures ever produced Published between 1907 and 1930 as a series of twenty volumes and portfolios the work contains more than two thousand photographs intended to document the traditional culture of every Native American tribe west of the Mississippi Many critics have claimed that Curtis's images present Native peoples as a vanishing race hiding both their engagement with modernity and the history of colonial violence But in this major reappraisal of Curtis's work Shamoon Zamir argues instead that Curtis's photography engages meaningfully with the crisis of culture and selfhood brought on by the dramatic transformations of Native societies This crisis is captured profoundly and with remarkable empathy in Curtis's images of the human face Zamir also contends that we can fully understand this achievement only if we think of Curtis's Native subjects as coauthors of his project This radical reassessment is presented as a series of close readings that explore the relationship of aesthetics and ethics in photography Zamir's richly illustrated study resituates Curtis's work in Native American studies and in the histories of photography and visual anthropology **Picture Composition** Peter Ward, 2002-11-12 Behind each shot there lies an idea or purpose When setting up a shot the camera operator can employ a range of visual techniques that will clearly communicate the idea to an

audience Composition is the bedrock of the operator's craft yet is seldom taught in training courses in the belief that it is an intuitive personal skill Peter Ward shows how composition can be learned to enhance the quality of your work Based on the author's own practical experience the book deals with the methods available for resolving practical production questions such as Does the shot composition accurately reflect the idea that initiated the shot Will the content and method of presenting the subject accurately convey the idea Major innovations in television and film production since the previous edition have affected the styles of composition such as wide screen and the use of mini DV cameras These new technologies and their implications for picture composition are addressed in this new edition A new colour plate section is also being included to update the section on colour If you are a practising camera operator trainee camera operator student or lecturer on a television or film production course or simply a video enthusiast wishing to progress to a more professional standard you will find this book essential in enhancing the quality of your work
