Mains voltages in Saudi Arabia are 127V and 220V only. Never use this model with 110V setting in Saudi Arabia.

The line voltage selector switches are located on the rear panel of this player. Before your player is shipped from the factory, these switches are set to the power requirements of the player's destination. Check that they are set properly before plugging the power cord into the outlet. If the voltage is not properly set or if you move to an area where the voltage requirements differ, adjust the selector switches as follows:

- Use a medium-sized (flat blade) screwdriver. Insert the tip of the screwdriver into the groove of the selector switches and turn it so that the power voltage marking of your area faces the arrow. Be sure to adjust both switches.
