meanings as depicted in imagery and texts They go on to explore such issues as how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality that were intimately bound up in these domains how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body Power Farming in Australia and New Zealand Technical Manual ,1982 Sheet Metal Industries ,1975 **The Metallurgist and Materials Technologist** ,1975 **Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 Jane's World Railways ,1998 Textile Technology Digest ,1998 *National Union Catalog* , Includes entries for maps and atlases **Who's who in the West** ,1985 **Government Reports Annual Index** ,1983 Sections 1 2 Keyword Index Section 3 Personal author index Section 4 Corporate author index Section 5 Contract grant number index NTIS order report number index 1 E Section 6 NTIS order report number index F Z *Business 2.0* ,2002
