- Some schools require each student to participate in an organized school sport chosen by the student. People at these schools argue that athletics is an important part of the educational experience and that there should be a rule requiring participation. Others argue that students should be free to decide whether or not they wish to participate in organized school sports.

Write an essay for a classroom instructor in which you take a position on whether participation in organized school athletics should be required. Be sure to defend your position with logical arguments and appropriate examples.

Writing First with Readings Laurie G. Kirszner, Stephen R. Mandell, 2011-12-28 Best selling authors and veteran college writing instructors Laurie Kirszner and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point In Writing First with Readings Practice in Context designed for the paragraph to essay course Kirszner and Mandell take seriously the ideas and expressive abilities of developmental students as well as their need to learn the rules of writing and grammar Visual writing prompts that open every chapter get students writing immediately By moving frequently between their own writing writing models and instruction and workbook style mastery exercises students get constant reinforcement of the skills they are learning Thoughtful chapters on college success research and critical reading along with high interest essays round out the text making it the perfect introduction to college writing Read the preface Machine Scoring of Student Essays Patricia Freitag Ericsson, Richard Haswell, 2006-03-15 The current trend toward machine scoring of student work Ericsson and Haswell argue has created an emerging issue with implications for higher education across the disciplines but with particular importance for those in English departments and in administration The academic community has been silent on the issue some would say excluded from it while the commercial entities who develop essay scoring software have been very active Machine Scoring of Student Essays is the first volume to seriously consider the educational mechanisms and consequences of this trend and it offers important discussions from some of the leading scholars in writing assessment Reading and evaluating student writing is a time consuming process yet it is a vital part of both student placement and coursework at post secondary institutions In recent years commercial computer evaluation programs have been developed to score student essays in both of these contexts Two year colleges have been especially drawn to these programs but four year institutions are moving to them as well because of the cost savings they promise Unfortunately to a large extent the programs have been written and institutions are installing them without attention to their instructional validity or adequacy Since the education software companies are moving so rapidly into what they perceive as a promising new market a wider discussion of machine scoring is vital if scholars hope to influence development and or implementation of the programs being created What is needed then is a critical resource to help teachers and administrators evaluate programs they might be considering and to more fully envision the instructional consequences of adopting them And this is the resource that Ericsson and Haswell are providing here Writeplacer Success: Accuplacer Essay Writing Study Guide Academic Success Media, 2013-05-26 Writeplacer Success is a comprehensive writing and grammar guide for the essay part of the Accuplacer test Writeplacer Success guides you through the Accuplacer essay
