Resources in Education ,1970-07 **Building Asset-Based Transitions to Postsecondary Education with Multilingual Students with Disabilities** Audrey A. Trainor, Lindsay E. Romano, Lynn A. Newman, 2024-09-30 This important volume presents the results from a five year mixed methods study on the transition from high school to postsecondary education for young adults who during secondary school received both English learner and special education services It aims to improve our understanding of and thus the supportive service provisions for the dually identified student population in secondary and

higher education settings The book explores dually identified students complex and intersectional experiences strengths and needs using multiple methods of inquiry including the examination of educational transition focused policies and practices a comprehensive review of research results case studies and comparative analysis of key stakeholder perspectives for this student population With a focus on equitable culturally sustaining transition research and practice the book informs graduate students researchers and teacher educators about how to mitigate the effects of historical marginalization increasing our collective understanding of intersectional experiences and how they shape young adults choices as they leave high school and move into young adulthood

Research in Education ,1969-12 **Assessing Student Learning in the School Library Media Center** Anita L. Vance,Robbie Nickel,2007 **Design, When Everybody Designs** Ezio Manzini,2015-03-06

The role of design both expert and nonexpert in the ongoing wave of social innovation toward sustainability In a changing world everyone designs each individual person and each collective subject from enterprises to institutions from communities to cities and regions must define and enhance a life project Sometimes these projects generate unprecedented solutions sometimes they converge on common goals and realize larger transformations As Ezio Manzini describes in this book we are witnessing a wave of social innovations as these changes unfold an expansive open co design process in which new solutions are suggested and new meanings are created Manzini distinguishes between diffuse design performed by everybody and expert design performed by those who have been trained as designers and describes how they interact He maps what design experts can do to trigger and support meaningful social changes focusing on emerging forms of collaboration These range from community supported agriculture in China to digital platforms for medical care in Canada from interactive storytelling in India to collaborative housing in Milan These cases illustrate how expert designers can support these collaborations making their existence more probable their practice easier their diffusion and their convergence in larger projects more effective Manzini draws the first comprehensive picture of design for social innovation the most dynamic field of action for both expert and nonexpert designers in the coming decades
