Corporate Opportunities Marco Claudio Corradi, 2021-08-26 This monograph provides a comprehensive analysis of corporate opportunities doctrines from a comparative perspective It looks at both common law and civil law rules and relies to a large extent on a law and economics approach This book broadens the conventional view on corporate opportunities a vital step in light of the adoption of corporate opportunities rules in civil law jurisdictions and in light of investors ever changing strategies This approach considers institutional complementarities and especially industrial complementarities The book thus explores several jurisdictions and their economic and industrial environments whilst also assessing the impact of globalisation onto legal reform Furthermore it analyses the problems related to the application of corporate opportunities rules to cross border venture capital In normative terms the book advances one main stance articulated in three points first it proposes different sanctions for undisclosed and disclosed misappropriations supporting the core idea that sanctions should be set against disclosure and not authorisation Secondly it advances the idea that sanctions against undisclosed misappropriations should be more severe than the ones presently applied Thirdly it considers the possibility of a more flexible treatment of disclosed misappropriations This study is positioned at the intersection of several fields providing a lens into a much broader range of dynamics that will be of interest to a varied international readership and offering a window into the broader institutional dynamics at work in centres of innovation eg Silicon Valley and industrial districts in other jurisdictions It is rooted in law and economics but the emphasis is placed on how corporate opportunities rules fit within a broader set of institutional dynamics that affect innovation industrial efficiency and economic competitiveness

corporate structure for this investor The structure involves a series of wholly foreign owned enterprises joint ventures and representative offices all under the control and ownership of one or more investment holding companies Each of the entities in this structure are discussed individually and as part of an overall corporate conglomerate The volume also examines the protection of intellectual property as a basic corporate business problem that should be part of the initial planning process as the foreign investor makes its initial move into China Too often protection of intellectual property is not considered to be a priority until violations occur in China Some prior planning and an emphasis on protecting intellectual property rights can be advantageous and help to avoid the serious problems that can later arise This volume is written for those business and legal managers who are given heavy responsibilities for managing a China business but who lack a background in China Because of the great interest in China by many MNEs many business and legal managers are moving to China or are given additional responsibilities in the US for the MNE s new China operations Many of these persons are expected to make decisions about a China operation even though they may lack even basic knowledge about the Chinese political legal and business environment This is the first book written by an American lawyer designed to address this need
