**International Law and Weapons Review** Natalia Jevglevskaja, 2021-12-16 International law requires that before any new weapon is developed purchased or modified the legality of its use must be determined This book offers the first comprehensive and systemic analysis of the law mandating such assessments Article 36 of the 1977 Additional Protocol I to the Geneva Conventions Underpinned by empirical research the book explores the challenges the weapons review authorities are facing when examining emerging military technology such as autonomous weapons systems

and autonomous cyber capabilities It argues that Article 36 is sufficiently broad to cover a wide range of military systems and offers States the necessary flexibility to adopt a process that best suits their organisational demands While sending a clear signal that law should not simply follow technological developments but rather steer them the provision has its limits however which are shaped and defined by the interpretative decisions made by States *Manual of Biobank Quality Management* Agnieszka Matera-Witkiewicz, Joanna Gleńska-Olender, Izabela Uhrynowska-Tyszkiewicz, Małgorzata Witoń, Karolina Zagórska, Katarzyna Ferdyn, Michał Laskowski, Patrycja Sitek, Błażej Marciniak, Jakub Pawlikowski, Dominik Strapagiel, 2023-02-14 This pioneering handbook serves as an essential tool for any biobanking entity to create implement and continuously improve their Quality Management System QMS Written in a concise and highly readable manner all biobanking related QMS aspects ranging from legal aspects to safety matters are addressed according to the best knowledge in compliance with the dedicated Biobanks ISO standards Following a practical approach by making use of FAQ and common practice sections this book guides the readers through this complex field in an easy to understand way The guidelines are convergent not only with ISO 20387 2018 Biotechnology Biobanking General requirements for biobanking but also with ISO 9001 2015 ISO 19011 2018 ISO 27000 2014 and ISO 27002 2013 Furthermore they are compatible among others with the recommendations of the Organization for Economic Cooperation and Development OECD IARC and ISBER Best Practices Aimed at both biobank employees and other stakeholders e g public bodies political bodies hospitals pharmaceutical industry funders at any level of experience the book serves as valuable source for self education and teaching The manual complies to the principles of responsibility openness and transparency and can be used by any biobanking unit regardless of the biological material the biobank operates with and independent of their associated biobank network On behalf of a group of specialists and experts in the area of biobanking regarding Quality Management Systems QMS Ethical Legal and Societal Issues ELSI and IT solutions the authors present with this book a significant achievement based on activities within the project European Research Infrastructure BBMRI ERIC Quality Standards for Polish Biobanks Handbook QSPB **Guide to Compounding, Adjudication and Prosecution** K S Ravichandran, 2020-05-23 Highlights A complete guide to provisions procedure and judicial precedents on offences and contraventions under the Company Law Securities Laws and FEMA Compounding of offences and adjudication of penalties and appeals thereof Directions disgorgement and settlement of proceedings under Securities Laws and other Relief and Remedies under the Companies Act 2013 Search seizure enquiry inspection and investigation under the Company Law Securities Laws and FEMA Crisp account of cognizable bailable and non bailable offences Trial procedures and quashing of criminal complaints under the Criminal Procedure Code **The Justification of War and International Order** Lothar Brock, Hendrik Simon, 2021-02-11 The history of war is also a history of its justification The contributions to this book argue that the justification of war rarely happens as empty propaganda While it is directed at mobilizing support and reducing resistance it is not purely instrumental Rather the justification of force

is part of an incessant struggle over what is to count as justifiable behaviour in a given historical constellation of power interests and norms This way the justification of specific wars interacts with international order as a normative frame of reference for dealing with conflict The justification of war shapes this order and is being shaped by it As the justification of specific wars entails a critique of war in general the use of force in international relations has always been accompanied by political and scholarly discourses on its appropriateness In much of the pertinent literature the dominating focus is on theoretical or conceptual debates as a mirror of how international normative orders evolve In contrast the focus of the present volume is on theory and political practice as sources for the re and de construction of the way in which the justification of war and international order interact With contributions from international law history and international relations and from Western and non Western perspectives this book offers a unique collection of papers exploring the continuities and changes in war discourses as they respond to and shape normative orders from early modern times to the present
