Reading at the Limits of Poetic Form Jacob McGuinn, 2024-05-15 Pushing the boundaries of critical reading and the role of objects in literature How does literary objecthood contend with the challenge of writing objects that emerge at an extreme limit of material presence Jacob McGuinn delves into the ways literature writes this indeterminate presence in the context of pre and post 68 Paris a vital moment in the history of criticism The works of poet Paul Celan philosopher Theodor Adorno and writer Maurice Blanchot highlight how the complexities of reading such a dematerialized object are part of the indeterminacy of material itself Indeterminate objects glass snow walls screens are subjects Celan describes as existing in meridian space while for Adorno and Blanchot criticism not only responds to this indeterminacy but also takes it as its condition Reading at the Limits of Poetic Form Dematerialization in Adorno Blanchot and Celan shows how these readings simultaneously limit the object of criticism and outline alternative ways of thinking that lie between the models of critical formalism and historicism ultimately revealing the possible materiality of literature in unrealized history incomplete politics and nondetermining thinking

Converts to the Real Edward Baring, 2019-05-01 In the most wide ranging history of phenomenology since Herbert Spiegelberg s The Phenomenological Movement over fifty years ago Baring uncovers a new and unexpected force Catholic intellectuals behind the growth of phenomenology in the early twentieth century and makes the case for the movement s catalytic intellectual and social impact Of all modern schools of thought phenomenology has the strongest claim to the mantle of continental philosophy In the first half of the twentieth century phenomenology expanded from a few German towns into a movement spanning Europe Edward Baring shows that credit for this prodigious growth goes to a surprising group of early enthusiasts Catholic intellectuals Placing phenomenology in historical context Baring reveals the enduring influence of Catholicism in twentieth century intellectual thought Converts to the Real argues that Catholic scholars allied with phenomenology because they thought it mapped a path out of modern idealism which they associated with Protestantism and secularization and back to Catholic metaphysics Seeing in this unfulfilled promise a bridge to Europe s secular academy Catholics set to work extending phenomenology s reach writing many of the first phenomenological publications in languages other than German and organizing the first international conferences on phenomenology The Church even helped rescue Edmund Husserl s papers from Nazi Germany in 1938 But phenomenology proved to be an unreliable ally and in debates over its meaning and development Catholic intellectuals contemplated the ways it might threaten the faith As a result Catholics showed that phenomenology could be useful for secular projects and encouraged its adoption by the philosophical establishment in countries across Europe and beyond Baring traces the resonances of these Catholic debates in postwar Europe From existentialism through the phenomenology of Paul Ricoeur and Maurice Merleau Ponty to the speculative realism of the present European thought bears the mark of
