### **Getting to the Core of Literacy for History/Social Studies, Science, and Technical Subjects, Grades 6–12**

Vicky Giouroukakis, Maureen Connolly, 2013-05-14 Literacy is not just for English teachers anymore. The new Common Core English Language Arts Standards aren't just for English teachers. Fluent reading and writing are critically important to the study of history, social studies, science, and technical subjects too. What's more, the progress your students make is directly tied to their ability to process information they read and to express their ideas in writing. So how do you make literacy a focus of your teaching without taking time away from essential content? This practical resource, packed with teacher-tested CCSS-based sample lessons, shows you how using the Backward Design approach to set and meet your goals. Each lesson template includes the teaching strategies you'll utilize, ways to incorporate technology and media, variations for differentiation and interdisciplinary connections, links to the work of major educational theorists. Following these models, you'll set the CCSS in your sights and develop lessons that both meet standards and fit your classroom. Before you know it, you'll be infusing reading and writing across your curriculum in purposeful and meaningful ways.

**Breakthrough Principals** Jean Desravines, Jaime Aquino, Benjamin Fenton, 2016-04-18 Bridge the achievement gap with proven strategies for student success. Breakthrough Principals debunks the myth of the superhero principal by detailing the common actions and practices of leaders at our nation's fastest-gaining public schools. Based on the authors' Transformational Leadership Framework, which they developed through an in-depth study of more than 100 high-gaining high-poverty schools, the book distills findings into a practical action-focused plan for diagnosing school needs and implementing structures, systems, and practices that accelerate student achievement. Brought to life by case studies of principals who have led dramatic gains in student achievement, the book is a how-to guide for increasing the quality of teaching and learning, improving school culture, attracting and supporting high-performing teachers, and involving parents and community to help students achieve. You'll learn how breakthrough principals make the school's mission a real part of both strategy and practice and set up sustainable systems that support consistent ongoing improvement. High-impact practices are organized into five broad categories: learning and teaching, school-wide culture, aligned staff operations and systems, and personal leadership. The primary job of school leadership is to help students succeed. It begins with first recognizing and prioritizing areas of need, then finding and implementing the most effective solutions. Whether you work in a turn-around environment or want to make a good school better, this book will give you a set of concrete practices illustrated through examples of real principals in real schools that have been proven to work. Discover the primary drivers of student achievement. Work toward the school's vision in staffing, operations, and systems. Set the tone for all relationships and practices with good leadership. Closing the achievement gap is a major goal of educational leadership, and principals are forever searching for viable methods that help them better serve their students. Breakthrough Principals unveils the details behind the success stories from across the nation to provide a roadmap to transformative gains.

In his next smart move he deferred to the talents of Sharon Taberski to be author of the K-2 volume *What makes Sharon Taberski's Common Core Companion* that version of the standards you wish you had. It's the way Sharon translates each and every standard for reading, writing, speaking and listening, language and foundational skills into the day to day what you do, lesson ideas, best literacy practices, grouping configurations, adaptations for ELLs, anchor charts and so much more. It's all here page by page. The standards for literature and informational texts put side by side for easier planning. More than a dozen teaching ideas for each standard. Recommendations on how to cultivate the habits of mind that are critical to meeting the standards including interpersonal skills, collaboration and perseverance. A glossary of academic language for each standard. Teaching suggestions for how to support ELL students. Developmental debriefs to signal how you may need to adapt expectations to meet students where they're at. An online bank of graphic organizers, student reproducibles, sample classroom charts, rubrics and photos. Reproducible planning templates for each standard to help you map out lessons, select books, generate key questions and more. With more than 30 years of classroom experience in the primary grades and years of consulting in schools nationwide, Sharon Taberski has a depth of knowledge about what both students and teachers in this country need in order to cultivate the win-win of high expectations and high engagement in K-2. She is a nationally recognized educator, author and presenter and a leader in the field of early reading instruction. Her professional books and teaching materials have revolutionized the way primary teachers approach reading and remain classics in the field.

**ELLs: Thinking Skills and CCSS, Focus on the Six Shifts** Estee Lopez, 2013-01-01. *The Common Core State Standards: CCSS for English Language Arts (ELA)* require students to engage higher-level thinking skills and language use to activate their understanding of content text. They are designed to be academically rigorous for all students and are especially so for students who are English language learners (ELL). In *ELLs: Thinking Skills and CCSS*, Dr. Estee Lopez provides evidence-based instructional approaches as well as best practices for helping ELLs meet the CCSS for ELA. The six-page tri-fold guide is structured around the six shifts embodied in the CCSS for English Language Arts: 1. Increasing reading of informational text, balancing informational and literary texts; 2. Knowledge in the disciplines; 3. Staircase of complexity; 4. Text-based answers; 5. Writing from sources; 6. Academic language. The guide explains each shift, its implications for ELLs and what is required of teachers. For each shift, the author lists best practices, examples of scaffolding for ELLs and things that teachers and administrators must do to create conditions that ensure that ELLs succeed.

Spencer,Sandra Vavra,2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility

of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Value s of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research
