predominates more than in the Reforms of other countries We cannot know the reason of this unless we study the movement which gave birth to that Reform The history of the political emancipation of Geneva is interesting of itself liberty it has been said has never been common in the world it has not flourished in all countries or in all climates and the periods when a people struggles justly for liberty are the privileged epochs of history One such epoch occurred at the commencement of modern times but strange to say it is almost in Geneva alone that the struggles for liberty make the earlier decades of the sixteenth century a privileged time It is in this small republic that we find men remarkable for their devotion to liberty for their attachment to law for the boldness of their thoughts the firmness of their character and the strength of their energy In the sixteenth century after a repose of some hundreds of years humanity having recovered its powers like a field that had long lain fallow displayed almost everywhere the marvels of the most luxuriant vegetation Geneva is indeed the smallest theatre of this extraordinary fermentation but it was not the least in heroism and grandeur and on that ground alone it deserves attention
