

Death of A Teacher: Sample Letter to Parents

Date

Dear Parents/Guardians:

One of the (grade) teachers, (name of teacher), died on (day of week) as the result of a medical condition (or more specific if possible). She (he) was a wonderful teacher loved by all her students and we will miss her greatly. Her commitment to students and love for learning has touched us all.

We encourage you to talk with your child. How we, as adults, manage ourselves serves as an important model for helping kids handle tragedies like this. It is important that they know they are loved and supported as they talk about their feelings. If they want to attend the funeral, we encourage your or another adult to accompany them.

You may want to consider the following when talking with your child:

- Tell the truth. Talk about death vs. "going to sleep." Explain the situation.
- Allow for your child to talk about feelings. If this is the first loss your child has experienced, your child may not know how to respond and will be looking for your guidance.
- Affirm all expressions. It's okay to express feelings honestly. Tolerate the expressions rather than dismissing them or discouraging the expression of feelings.
- Encourage written expressions such notes, letters, pictures to the family etc.
- Reaffirm that your child is safe and that your child is loved.
- Affirm that your child's reaction is normal and you understand the way the child's feels.
- Watch for signs of trouble such as aggression, withdrawal etc.
- Help the children return to as normal routine as possible.

We have had a team of counselors, a social worker and a psychologist at school throughout the day to provide emotional support for our students. If you have special counseling concerns or would like additional support for your child, please call us at (phone number).

Our deepest sympathies go to (teacher's name) family. We care deeply for all involved.

Sincerely,

Name
Principal

The Pandemic of Argumentation Steve Oswald, Marcin Lewiński, Sara Greco, Serena Villata, 2022-02-25. This open access book addresses communicative aspects of the current COVID-19 pandemic as well as the epidemic of misinformation from the perspective of argumentation theory. Argumentation theory is uniquely placed to understand and account for the challenges of public reason as expressed through argumentative discourse. The book thus focuses on the extent to which the forms, norms, and functions of public argumentation have changed in the face of the COVID-19 pandemic. This question is investigated along the three main research lines of the COST Action project CA 17132 European network for Argumentation and Public Policy analysis: APPLY descriptive, normative, and prescriptive. The volume offers a broad range of contributions which treat argumentative phenomena that are directly related to the changes in public discourse in the wake of the outburst of COVID-19. The volume additionally places particular emphasis on expert argumentation given i) the importance expert discourse has had over the last two years and ii) the challenges that expert argumentation has faced in the public sphere as a result of scientific uncertainty and widespread misinformation. Contributions are divided into three groups which i) examine various features and

aspects of public and institutional discourse about the COVID 19 pandemic ii scrutinize the way health policies have been discussed debated attacked and defended in the public sphere and iii consider a range of proposals meant to improve the quality of public discourse and public deliberation in particular in such a way that concrete proposals for argumentative literacy will be brought to light Overall this volume constitutes a timely inquiry into all things argumentative in pandemic discourse This volume is of interest to a broad readership including philosophers linguists communication and legal scholars and members of the wider public who seek to better understand the discourse surrounding communicative phenomena in times of crisis COST European Cooperation in Science and Technology is a funding organisation for research and innovation networks For more information www.cost.eu Public School Emergency Preparedness Don Philpott, 2019-10-30 In response to the ever present threats facing our school systems Public School Emergency Preparedness helps schools and institutions develop a comprehensive emergency response plan This book outlines programs and procedures that can be applied to any school system which addresses hazard mitigation and prevention emergency preparedness and response and recovery and restoration to an effective learning environment It describes specific actions and assigns responsibilities and response roles to district and individual school staff emergency teams cooperating agencies and community response partners as described in this plan In the event of an emergency involving response by fire and or law enforcement this book also outlines the district school site personnel who should establish an Incident Command System based response organization in accordance with procedures outlined in the National Incident Management System In addition the author predetermines to the extent possible operational procedures across any U S school system and cooperating governmental private and volunteer agencies for responding to and recovering from any and all types of natural human or technology based emergencies that may occur within school system operations or outside the jurisdiction of the school system but nonetheless cause could cause collateral impact to school system operations **The First-Year Teacher's Survival Guide** Julia G. The Corinthian Correspondence Frank W. Hughes, Robert Jewett, 2021-10-19 In The Corinthian Correspondence Frank W Hughes and Robert Jewett argue that there were eight original letters by the Apostle Paul to the church in Corinth In the first part of the book they use literary and redaction criticism to show the reasons for the partition theory of 1 and 2 Corinthians Analyzing each of the eight letters and letter fragments using rhetorical criticism they show how the original Corinthian letters were edited and reshaped into 1 and 2 Corinthians in the New Testament After reflections on the rhetoric of these letters and the historical meaning of the reshaping of the images of Paul a final chapter traces the consequences of the reshaping of the Corinthian correspondence and the adoption of the bound book codex instead of the original papyrus scrolls Several figures help the reader understand the redactional process and a new translation of the eight reconstructed Corinthian letters is provided

Silent Teachers Nil Ö. Palabıyık,2023-03-17 Silent Teachers considers for the first time the influence of Ottoman scholarly practices and reference tools on oriental learning in early modern Europe Telling the story of oriental studies through the annotations study notes and correspondence of European scholars it demonstrates the central but often overlooked role that Turkish language manuscripts played in the achievements of early orientalist Dispersing the myths and misunderstandings found in previous scholarship this book offers a fresh history of Turkish studies in Europe and new insights into how Renaissance intellectuals studied Arabic and Persian through contemporaneous Turkish sources This story hardly has any dull moments the reader will encounter many larger than life figures including an armchair expert who turned his alleged captivity under the Ottomans into bestselling books a drunken dragoman who preferred enjoying the fruits of the vine to his duties at the Sublime Porte and a curmudgeonly German physician whose pugnacious pamphlets led to the erasure of his name from history Taking its title from the celebrated humanist Joseph Scaliger s comment that books from the Muslim world are silent teachers and need to be explained orally to be understood this study gives voice to the many and varied Turkish language books that circulated in early modern Europe and proposes a paradigm shift in our understanding of early modern erudite culture
