India, GCC, and the Global Energy Regime Samir Ranjan Pradhan, 2008 Addressing the bilateral economic relations between India and the Gulf Cooperation Council in the face of massive energy consumption increases this analysis argues that the evolving pattern of energy related links will act as a stimulant and boost these relations This volume cites India s trajectory and importance explaining that Asia s burgeoning demand for oil and gas is a crucial factor in the current world energy market and has occupied center stage in the contemporary discourse on global energy security

Sino-Japanese Relations in a Trilateral Context Yun Zhang, 2016-11-24 This book explains the increasingly turbulent Sino Japanese relations since the 2000s by innovatively investigating the formation mechanism of mutual misperception deeply rooted in China Japan U S trilateral structural dynamics The political and security relationship has been increasingly deteriorating against the high interdependency between the world s second and third largest economies More ironically both sides have also shown the intent and made efforts to improve bilateral ties The author systematically conducts a focused comparison of the evolution of the Sino Japanese mutual perceptions and policies toward one another during the past decade and a half Empirically Yun Zhang closely examines five case studies that provide insights to IR students and scholars and policy makers on how misperception and mistrust have formed replicated and intensified

Europe for the Europeans Christina Schori Liang, 2016-04-29 For the last two decades the number of political organizations on the far right neo populist right and neo conservative right has been growing Along with the mounting electoral success for many of the parties there has also been a growing

disenchantment with the political class which has led to a revolt against the current political establishment The events of September 11 2001 and the War on Terror have further aggravated tensions within the populations between those who feel they are the legitimate citizens of the state and those who are considered outsiders The recent expansion of the EU's borders has also brought on fears of a surge of both legal and illegal immigration All these factors have led to a growing number of cases of harassment and outbursts of violence aimed at asylum seekers and ethnic minorities in Europe This book measures the effects of neo populist groups on the current political establishment and illustrates how much political appeal neo populist views have on making current political policy Power and Governance in a Partially Globalized World Robert Keohane,2003-09-02 As one of the most innovative and influential thinkers in international relations for more than three decades Robert O Keohane's groundbreaking work in institutional theory has redefined our understanding of international political economy Consisting of a selection of his most recent essays this absorbing book address such core issues as interdependence institutions the development of international law globalization and global governance The essays are placed in historical and intellectual context by a substantial new introduction outlining the developments in Keohane's thought and in an original afterword the author offers a challenging interpretation of the September 11th attacks and their aftermath Undoubtedly this book is essential reading for anyone with an interest in international relations *If Life Is a Game, How Come I'm Not Having Fun?* Paul Brenner,2001-04-19 Advocates applying a spirit of play to everyday life Perspectives on International Relations Henry R. Nau,2018-01-03 Perspectives on International Relations Power Institutions and Ideas shows students new to the field how theories perspectives of international affairs realism liberalism constructivism identity and critical theory play a decisive role in explaining every day debates about world affairs Why for example do politicians and political scientists disagree about the causes of the ongoing conflict in Syria even though they all have the same facts Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed The new Sixth Edition of this best seller includes updates on Brexit the rise of Donald Trump and other populist leaders and continuing developments for ISIS Syria and Russia The Iraq Crisis and World Order Ramesh Thakur And Waheguru Pal Singh Sidhu,2007-09 EU Conflict Prevention and Crisis Management Eva Gross,Ana Juncos,2010-12-22 This book offers a comprehensive analysis of long and short term EU conflict prevention and crisis management policies undertaken in various theatres and policy domains featuring case studies on West Africa Afghanistan and the Caucasus Foreign Policy Analysis M. Breuning,2007-11-26 This book's introduction to foreign policy analysis focuses on decision makers and decision making Each chapter is organised around puzzles and questions to which undergraduates can relate The book emphasizes the importance of individuals in foreign policy decision making while also placing decision makers within their context The Globalization of Liberalism E. Hovden,E. Keene,2016-01-12 The Globalization of Liberalism demonstrates that liberalism is more deeply embedded in the structure of modern international political and economic order than is usually realised and that

at present there is a contested process of the globalization of liberalism As well as exploring liberalism s usefulness for understanding how international relations work the contributors offer critical perspectives on the liberal structure of modern international society and places international liberalism into a global context by examining responses to liberalism in China India and the Middle East *The Future of International Relations* Iver B. Neumann, Ole Waever, 2005-06-29 This book presents the state of the art of international relations theory through an analysis of the work of twelve key contemporary thinkers John Vincent Kenneth Waltz Robert O Keohane Robert Gilpin Bertrand Badie John Ruggie Hayward Alker Nicholas G Onuf Alexander Wendt Jean Bethke Elshtain R B J Walker and James Der Derian The authors aim to break with the usual procedure in the field which juxtaposes aspects of the work of contemporary theorists with others presenting them as part of a disembodied school of thought or paradigm A more individual focus can demonstrate instead the well rounded character of some of the leading oeuvres and can thus offer a more representative view of the discipline This book is designed to cover the work of theorists whom students of international relations will read and sometimes struggle with The essays can be read either as introductions to the work of these theorists or as companions to it Each chapter attempts to place the thinker in the landscape of the discipline to identify how they go about studying International Relations and to discuss what others can learn from them **Antisemitism in America** Leonard Dinnerstein, 1995-11-02 Is antisemitism on the rise in America Did the

hymietown comment by Jesse Jackson and the Crown Heights riot signal a resurgence of antisemitism among blacks The surprising answer to both questions according to Leonard Dinnerstein is no Jews have never been more at home in America But what we are seeing today he writes are the well publicized results of a long tradition of prejudice suspicion and hatred against Jews the direct product of the Christian teachings underlying so much of America s national heritage In *Antisemitism in America* Leonard Dinnerstein provides a landmark work the first comprehensive history of prejudice against Jews in the United States from colonial times to the present His richly documented book traces American antisemitism from its roots in the dawn of the Christian era and arrival of the first European settlers to its peak during World War II and its present day permutations with separate chapters on antisemitism in the South and among African Americans showing that prejudice among both whites and blacks flowed from the same stream of Southern evangelical Christianity He shows for example that non Christians were excluded from voting in Rhode Island until 1842 North Carolina until 1868 and in New Hampshire until 1877 and demonstrates how the Civil War brought a new wave of antisemitism as both sides assumed that Jews supported with the enemy We see how the decades that followed marked the emergence of a full fledged antisemitic society as Christian Americans excluded Jews from their social circles and how antisemitic fervor climbed higher after the turn of the century accelerated by eugenicists fear of Bolshevism the publications of Henry Ford and the Depression Dinnerstein goes on to explain that just before our entry into World War II antisemitism reached a climax as Father Coughlin attacked Jews over the airwaves with the support of much of the Catholic clergy and Charles Lindbergh delivered an openly antisemitic speech

to an isolationist meeting After the war Dinnerstein tells us with fresh economic opportunities and increased activities by civil rights advocates antisemitism went into sharp decline though it frequently appeared in shockingly high places including statements by Nixon and his Chairman of the Joint Chiefs of Staff It must also be emphasized Dinnerstein writes that in no Christian country has antisemitism been weaker than it has been in the United States with its traditions of tolerance diversity and a secular national government This book however reveals in disturbing detail the resilience and vehemence of this ugly prejudice Penetrating authoritative and frequently alarming this is the definitive account of a plague that refuses to go away

Foreign Political Engagement D. Geldenhuys, 2016-07-27 The 1990s have witnessed several major external initiatives to reshape the domestic political arrangements of countries Because these have been collective foreign ventures usually with the active collaboration of the target countries the term intervention is ill suited Instead Deon Geldenhuys introduces the notion of foreign political engagement to describe international attempts at remaking countries in the image of the West South Africa Kenya Somalia Russia Cambodia El Salvador and Haiti serve as case studies to demonstrate this important theoretical rethinking of international relations today Beyond Guns and Steel Dominic J. Caraccilo, 2011-01-19 This work is a doctrinal examination of war termination strategy and conflict resolution as a dependent pair requiring a plan to achieve both in unison in advance of a fight The necessity of a plan for conflict resolution should be intuitively obvious for policymakers yet a survey of recent conflicts including Afghanistan and Iraq shows that not to be the case Beyond Guns and Steel A War Termination Strategy provides a practical approach to establishing a plan for war termination and conflict resolution before the bullets fly In explaining the difference between strategy and policy Colonel Dominic J Caraccilo clarifies the most important and often the most constraining element of a nation's power its resources He posits that termination strategy and conflict resolution are interdependent and need to be included in conflict plans from the outset Caraccilo's book fills a void in current strategy for the development of long term plans that bring conflicts to timely and acceptable conclusions providing a methodology that allows interagency requirements and resources for war termination to be defined allocated and employed effectively The Korean Wave from a Private Commodity to a Public Good Yeonhee Yoon, Kiwoong Yang, 2020-02-01 The title of this book The Korean Wave from a Private Commodity to a Public Good refers to the idea that the Korean Wave has now crossed its nation's borders and become an international public good Because the Korean Wave has so far surpassed its national borders to become a subject of global attention we consider the Korean Wave through the lenses of power interest identity politicization and the anti Korean wave In this context we are proud to have supported the work that has led to this publication We congratulate the editors on promoting a unique interdisciplinary perspective on popular culture and international relations featuring contributions by both humanists and social scientists and focusing on a hugely significant transcultural phenomenon the Korean Wave that originated in Asia yet spread across the globe The questions of identity interest and power raised by this publication based on a series of conferences held on our campus are as

significant as they are innovative I hope you the reader will be inspired by this collection to pursue your own inquiries and further develop the study of Korean culture in global context Michel Hockx Director of Liu Institute for Asia and Asian Studies University of Notre Dame Nuclear Proliferation Dynamics in Protracted Conflict Regions Saira Khan, 2017-11-01 This title was first published in 2003 Using extensive case studies of the nuclear weapons programmes of India Pakistan Israel Iraq Iran Egypt and Syria this important work shows that a higher than normal probability of war in protracted conflict regions prompts states to search for credible deterrents such as nuclear weapons The book rigorously examines the factors that affect the pace of this proliferation such as regional power structures and geographical proximity and challenges many prevailing theories on proliferation This compelling text convincingly argues that simple conflict relationships are not sufficient for countries to go nuclear thus providing insight into the true complexity of the issue Explaining the similarities and differences between the nuclear policies of states in protracted conflict regions the book commands the attention of anyone interested in nuclear proliferation and regional conflict From Pride to Influence Michael Hart, 2009-04-30 Recent Canadian foreign policy has fixated upon Canada's former status as a middle power within a small club of western democratic states The emergence of a US dominated world and of an integrated North American economy and the decline of multilateral rules and institutions as prime instruments of global governance have left Canadian foreign policy searching for new purpose and direction From Pride to Influence brings Canadian foreign policy into the twenty first century by grounding it in a conception of the national interest that accepts the primacy of the United States in guaranteeing Canadian national security and prosperity It will appeal to the engaged public practitioners analysts and senior undergraduate and graduate classes focused on Canadian foreign policy **The Politics of Cross-border Crime in Greater China** Shiu Hing Lo, 2009 Organized crime has been on the rise in the Greater China region since the People's Republic opened up its economy and society in the mid 1980s This book provides a detailed and comprehensive study of how the state at the central and local levels has responded to the changing patterns and activities of cross border crime in Greater China
