Innovation, Profit and the Common Good in Higher Education J. Harpur, 2010-07-30 University ethics is everyone's business and big business is what the university is all about whether in the US Europe or the rest of the world How this has come about is less important than that it has and is being taken very seriously by global and national forces The important issue confronting higher education is its assumed role in guaranteeing economic prosperity Governments are no longer content to let research leak out serendipitously into the economy The Post Industrial Society Information Society Knowledge Economy and Smart Economy require nothing less than commercially directed research producing innovative products The public interest is reduced to economic measures The political social and moral implications of changing practices in the university are rarely acknowledged in the rise of the New Alchemy This book examines the resulting ambiguities and questionable evidence in favour of current policies

Teachers and Teacher Unions in a Globalised World John Carr, Lori Beckett, 2018-06-13 Teachers and Teacher Unions in a Globalised World asks a series of pressing questions of teacher educators teachers and teacher unions worldwide in this era of global capitalism As governments around the world support austerity politics in the face of financial meltdowns social inequalities terrorist threats climate catastrophe wars and mass migrations the book questions whether practitioners in teaching and teacher education are succumbing to pressures to dismantle their nation state systems of education The authors present a clearly argued case in Ireland for teachers and teacher educators organising to realise their moral and social responsibilities of free and fair schooling for all when it is most needed as well as insisting on policy debates about a free publicly funded school system At a time when teachers are feeling overwhelmed with workload and frustrated by the visible turning of events away from the historical record the book emphasises the importance of practitioner research in informing decisions about a strategic and democratic way forward for
