Aspects of Teaching and Learning in Secondary Schools Hilary Bourdillon, Anne Storey, 2013-07-04 This textbook heads the Open University's flexible PGCE Perspectives on Practice series which provides a practical illustration of skills knowledge and understanding required to teach in the secondary classroom As well as describing concepts and ideas the book provides a critical examination of some of the key issues and will encourage the reader to engage with the ideas and consider their views and beliefs This book accompanies each of the subject specific books in the series providing a valuable link between disciplines The series complements our other OU series Teaching in the Secondary School which addresses theoretical issues relating to teaching Together these two series provide a complete resource for students

Leadership in Organizations John Storey, 2003

Only in New Orleans Luis Mirón, Brian R. Beabout, Joseph L. Boselovic, 2015-07-22 With 2015 marking the 10th commemoration of Hurricane Katrina education reform in New Orleans continues to garner substantial local national and international attention Advocates and critics alike have continued to cite test scores new school providers and different theories of governance in making multiple arguments for and against how contemporary education policy is shaping public education and its role in the rebuilding of the city Rather than trying to provide a single unified account of education reform in New Orleans the chapters in this volume provide multiple ways of approaching some of the most significant questions around school choice and educational equity that have arisen in the years since Katrina This collection of research articles essays and journalistic accounts of education reform in New Orleans collectively argues that the extreme makeover of the city's public schools toward a new market based model was shaped by many local historically specific conditions In consequence while the city's schools have been both heralded as a model for other cities and derided as a lesson in the limits of market based reform the experience of education reform that has taken place in the city and its impacts on the lives of students families and educators could have happened only in New Orleans

The Next Big Thing in School Improvement Ben White, Matthew Evans, Rebecca Allen, 2021-10-22 This is a book about educational fads why they arise and how we might learn to live with them Those working in schools are subject to perpetual waves of novelty in the name of school improvement And yet in the long term very little actually changes Big ideas come and go leaving only faint clues as to their existence The trouble is that the appealing stories that take hold will never solve the fundamental problems of modern schooling The school system is too complex too diverse and too uncertain to be fixed by any Big Idea Before too long the Next Big Thing replaces the Last Big Thing The Next Big Thing in School

Improvement brings together the unique perspectives of a policy analyst a headteacher and a classroom teacher to explain why it is that the school system often resists our attempts to improve it Drawing on the recent history of English education policy a variety of disciplinary traditions and the emerging field of complexity science the authors present a new take on why the school system behaves in ways that defy our attempts to change it This is a book about finding a better way to improve our schools It is not the Next Big Thing but it does explain why there will inevitably be one and what to do when it arrives
