Challenging Mathematical Problems with Elementary Solutions A. M. I□A□glom,1967 **Math Scaffolds** Avraam Ziogas,2021-03-24 This book is about secondary degree equations or quadratic equations It is based on an algorithmic method The method is presented with empty boxes that need to be filled with numbers The first two equations are fully solved as an example Then the equations have gradually more and more blank spaces to be filled by the student The blank spaces are here to help with the structure Repetition is used to create a visual pattern that will be converted to a mental pattern The existing numbers tend to serve as guidelines at the first equations and then they transform to checkpoints or pointers of different or difficult points Gradually the equations become more challenging Chapter 1 Equations are presented fully solved and then gradually more blank spaces are introduced Chapter 2 Students can solve equations with coefficient a of the second degree term different than 1 Chapter 3 Equations without solutions are introduced Chapter 4 Equations are

repeated and the scaffold is getting more discreet Chapter 5 Equations are repeated and the scaffold is disappearing leaving only the basic formulas in place Chapter 6 This chapter has all the calculations needed for all the equations of the book Additions subtractions multiplications squares and roots are listed here to be referenced if needed Recommendation Read the first fully solved equations with a critical eye Color with colored markers the coefficients a , b and c and track them in the solved equations Students with special educational needs Students should work on this material with the help of an assistant familiar with the material Let the students find patterns in the first solved equations Support them but also let them guess or speculate for the answers even if they are not sure Goals Learn to solve quadratic equations Build confidence in the student s abilities Overcome the psychological barrier of low performance Give the students the opportunity to feel small successes Who should use this book Students homeschooling Students who missed the related material at school Students with special education needs supported by a qualified supporter Teachers who want to differentiate their lesson s structure Teachers can use the book for revisions or as material for substitute teachers Substitute teachers for short or longer periods of time
