Tommy Greenwald and Malala Yousafzai's autobiography for young readers *I Am Malala*. He also responds to stories that take young people as their primary subjects in such novels as Sapphire's *Push* and films including *Battle Royale* and *Cooties*. Though ranging widely in their accounts of young life, such stories betray a mounting sense of crisis in education around the world, especially in terms of equity, the extent to which students from diverse backgrounds have fair chances of receiving quality education and empowerment, the extent to which diverse students are encouraged to gain strength, confidence, and selfhood as learners. Drawing particular attention to the influence of neoliberal initiatives on school experience, this book considers what it means when learning and success are measured more and more by entrepreneurship, competitive individualism, and marketplace gains. Attentive to the ways in which power structures, institutional routines, school spaces, and social relations operate in the contemporary school story, *The School Story* offers provocative insights into a genre that speaks profoundly to the increasingly precarious position of education in the twenty-first century.
