HOW TO POSE... FULL-LENGTH MALES

Digital
Camera
World

SIDE-ON

Ask your subject to stand side-on for the slimmest view of the body and to give shape to the shoulders.
Top tip: Bent arms add shape to the pose, so try moving a hand up to break up the body.

CASUAL DRESS

Ask your model to stand side-on, with their front foot facing forward and their back foot side-on, resting their weight on the back leg.
Top tip: Hands in pockets gives a relaxed feel.

WALKING TALL

Ask your model to walk towards the camera while exaggerating the drop of the shoulders.
Top tip: Shoot from slightly lower down to give a taller and more imposing portrait.

COLLARS UP

Guys often need something to do with their hands, so ask them to adjust their clothes.
Top tip: Suits are useful for this as they can fix the cuff, adjust a button or hold the lapel.

BACK TO FRONT

Sit your model on a chair, leaning over the back of it.
Top tip: Props are particularly useful for guys as it makes them look less like they're posing, but don't try to force poses that look too unnatural.

TAKE A PEW

While on the chair, ask your model to lean forwards and slightly to the side, with feet coming together.
Top tip: Relax the arms, allowing the hands to drop down for a more natural shot.

ON THE MOVE

Have your model walk side-on to the camera, then turn, keeping the arms loose and slightly bent.
Top tip: Bringing the knees together creates a more attractive shape to the body.

LEAP OF FAITH

Jumps can add spontaneity. Ask your model to bring their legs upwards and have open clothes flying free.
Top tip: Ask them to focus on making a good expression when jumping.

KARATE KICK!

Throw in some fun poses; depending on your subject this could be a kick, a dance move, or a backflip!
Top tip: Starting off with the 'silly' ideas is a great way to relax subjects into the shoot.

Quick Guide to the Coming Apocalypse David Lee, **A User's Guide to Thought and Meaning** Ray Jackendoff,2012-02-23 A User s Guide to Thought and Meaning presents a profound and arresting integration of the faculties of the mind of how we think speak and see the world Ray Jackendoff starts out by looking at languages and what the meanings of words and sentences actually do He shows that meanings are more adaptive and complicated than they re commonly given credit for and he is led to some basic questions How do we perceive and act in the world How do we talk about it And how can the collection of neurons in the brain give rise to conscious experience As it turns out the organization of language thought and perception does not look much like the way we experience things and only a small part of what the brain does is conscious Jackendoff concludes that thought and meaning must be almost completely unconscious What we experience as rational conscious thought which we prize as setting us apart from the animals in fact rides on a foundation of unconscious intuition Rationality amounts to intuition enhanced by language Written with an informality that belies both the originality of its insights and the radical nature of its conclusions A User s Guide to Thought and Meaning is the author s most important book since the groundbreaking *Foundations of Language* in 2002
