This launch is a comprehensive revamping of the MCSE/Microsoft Certified System Engineer track with all new core exams and all new electives. In addition, the MCSA/Microsoft Certified System Administrator certification will expand its program to include an additional upgrade exam for MCSAs wanting to become MCSEs. The launch of this new certification track means that all current MCSEs representing an installed base of approximately 200,000 source MCP Magazine will need to recertify under Windows Server 2003. In addition, any MCP looking to become an MCSE estimates are about 1.2 million source MCP Magazine will also have to continue their certifications under the new program. Many industry experts expect the Windows 2003 certification and product line as well to be a more popular track since many
