Assessment in Geographical Education: An International Perspective

Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills

Burnt by Democracy Jacqueline Kennelly, 2023-11-30 Burnt by Democracy traces the political ascendance of neoliberalism and its effects on youth The book explores democracy and citizenship as described in interviews with over forty young people ages

16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties Rather it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality *Burnt by Democracy* makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all
