

Project scope statement

The redesigned website will provide customers with faster and easier access to products while offering value-added content to increase session durations and reduce bounce rates.

Overview:

- ❑ Create a new engaging web design for an existing brand.
- ❑ Retain existing brand identity and requirements.
- ❑ Optimize website performance for a faster user experience.
- ❑ Engage visitors with detailed, accessible content.
- ❑ Monitor key performance metrics to measure session duration and bounce rate improvements.

Governance:

- ❑ Branding and design decisions will be the responsibility of the creative director.
- ❑ Optimization goals will be assessed and targeted by the web development lead in collaboration with the creative director.
- ❑ Content drafting and editing will be overseen by the senior copywriter, along with marketing team resources as needed.
- ❑ The project manager will be responsible for benchmarking the metrics with the client. All deliverables must be submitted per the provided schedule to the project manager, who will take them to the client account manager for assessment and client review.

Approach (in scope):

- ❑ Rebranding or changes to established colors and logos
- ❑ Creation of additional content or landing pages
- ❑ Metrics such as website conversions

Assumptions

- ❑ Budget restrictions limit this to specified team resources only.
- ❑ Department coverage will be provided for vacation overlap.
- ❑ The website will launch by the end of Q3, inclusive of quality assurance testing.
- ❑ Client interest in expanding scope will be added to future engagements.

Deliverables

- ❑ Complete redesign of all existing pages on the client's website
- ❑ Copywriting and editing to fill in pages that lack engagement
- ❑ Optimization of website elements to reduce load time and increase site speed from the initial benchmark
- ❑ Improvement by 10% over six months after completion in session duration and bounce rate metrics.

Prague Linguistic Circle Papers Eva Hajiřová, Petr Sgall, Jiri Hana, 2002-01-01 The fourth volume of the revived series of Travaux du Cercle linguistique de Prague brings three contributions by J Vachek O Le ka and V Skalicka connected with the classical period of the Prague School as well as papers delivered at the conference Function Form and Meaning Bridges and Interfaces held in Prague in 1998 Some of the contributions concern issues of grammar of different languages including a syntactic annotation of a large Czech text corpus a comparison of Hebrew conditionals with English a characterization of the typology of the Indo European verb A further part focuses on topic focus articulation information sentence structure functional sentence perspective with a concept of perspective introduced as close to but distinct from topic and with three different viewpoints on the semantics of information structure Two broader essays on the nature of language are then presented while the last section analyzes the structure of free verse The volume represents a contribution to the continuing fruitful interaction between the work of the Prague School and the more and less closely related approaches of linguists in other countries

Japanese Psycholinguistics Joseph F. Kess, Tadao Miyamoto, 1994-01-01 This classified and annotated research bibliography is meant to serve as an introduction to the rich field of Japanese psycholinguistics by providing an exhaustive inventory of what has been done in or about Japanese in a psycholinguistic sense Thus this volume captures the tradition of psycholinguistic research currently being pursued in Japan its history and development over the past thirty years and its current directions and research themes as well as international research in modern psycholinguistics which targets the Japanese language as the focal point of empirical procedures or deductive analysis in psychology linguistics psycholinguistics and cognitive science The bibliography supports a broad view of psycholinguistics acknowledging that psycholinguistic research in how natural language is learned produced comprehended stored and recalled now reaches beyond its traditional roots in the two disciplines of psychology and linguistics The interested scholar will thus find entries from the traditional core of psycholinguistic research on natural language as well as entries from related areas which have either influence or been influenced by psycholinguistic work on Japanese Every article text and edited volume listed in the bibliography is available through normal library channels and is thus accessible to the scholar interested in what psycholinguistic research has been done in or on the Japanese language in Japan and internationally The annotations for each entry have been especially written for this bibliographic inventory and with the linguist psychologist and psycholinguist

specifically in mind The authors intention is to maximize the usefulness of such an inventory by preparing annotations for the interested reader who wishes to know not only what the article contains but where it fits in the research tradition

Other Income under Tax Treaties Alexander Bosman, 2015-09-23 Bilateral tax treaties are often to a greater or lesser extent based on the OECD Model Convention Among the distributive rules with respect to taxation of income which are laid down in Chapter III of that model Article 21 assigns the tax jurisdiction in respect of other income understood to mean items of income which are not dealt with in other provisions of the tax treaty to the residence state in accordance with the main rule underlying the OECD Model thus ensuring that no income falls outside the scope of the treaty This study provides a comprehensive analysis of Article 21 of the OECD Model In extensive detail and with reference to case law from a number of jurisdictions and to statements of various authorities and official documents the author shows how Article 21 operates in relation to the other distributive rules of the OECD Model and bilateral tax treaties based thereon The analysis considers such items of income as the following in relation to Article 21 income from immovable property business profits profits from shipping inland waterways transport and air transport dividends interest and royalties capital gains and income from employment In addition the author examines the significance of the OECD Commentaries for the interpretation of tax treaties the other income article in other model conventions and notable deviations from Article 21 among bilateral tax treaties An appendix offers well grounded recommendations on how to potentially amend the wording of Article 21 and the related commentary and how the application of the article can be improved Although underexposed in the tax law literature heretofore the other income article raises important international taxation issues that remain problematic or unresolved Tax lawyers government officials and other interested professionals will find here a penetrating analysis that goes a long way towards clarifying the characterisation of income that resists the standard categories defined in tax treaties

French Creoles Anand Syya, 2017-01-06 French Creoles A Comprehensive and Comparative Grammar is the first complete reference to present the morphology grammar and syntax of a representative selection of French Creoles in one volume The book is organised to promote a thorough understanding of the grammar of French Creoles and presents its complexities in a concise and readable form An extensive index cross referencing and a generous use of headings provides readers with immediate access to the information they require The varieties included within the volume provide a representative collection of French Creoles from the Indian Atlantic and Pacific Oceans including Mauritian Creole Seychelles Creole Reunion Creole where relevant Haitian Creole Martinique Creole Guadeloupe Creole Guyanese French

Creole Karipuna St Lucia Creole Louisiana Creole and Tayo By providing a comprehensive description of a range of French Creoles in a clear and non technical manner this grammar is the ideal reference for all linguists and researchers with an interest in Creole studies and in French descriptive and historical linguistics *Presuppositions and Discourse: Essays Offered to Hans Kamp* Rainer Bauerle, Uwe Reyle, Thomas Zimmermann, 2010-03-23 So it is hardly a decade ago that presupposition theory has been cast into a promising theoretical form And as this provided an inspiring starting point for further research we thought that at the turn of the century the time had come to discuss what the new theory had taught us and which promising further perspectives had been opened up This was the motivation behind the conference on Presupposition which we convened in Stuttgart in October 2000 and which gave rise to the papers collected in this volume The conference was funded by the Deutsche Forschungsgemeinschaft which we gratefully acknowledge Undoubtedly presupposition theory is a major chapter in the success story of dynamic semantics A conference on the topic thus also seemed to us the ideal birthday present for one of the founding fathers of dynamic semantics our teacher and friend Hans Kamp on his 60th birthday To him we dedicate the volume as an expression of our gratitude for his untiring effort to make us understand *The Second Glot International State-of-the-Article Book* Lisa Cheng, Rint Sybesma, 2014-10-15 The Glot International State of the Article books constitute the ideal solution for every one who wants to have a good idea of what the others are doing but does not have time to follow the developments in all other parts of the field on a day to day basis All articles were previously published in Glot International and have been revised and updated and special attention was given to the extensive bibliography which constitutes an important part of each overview article Among the essays in the first volume are overview articles dealing with VP ellipsis by Kyle Johnson Ergativity by Alana Johns tone by San Duanmu acquisition of phonology by Paula Fikkert and semantic change by Elizabeth Closs Traugott The second volume offers articles on subjects ranging from the development of grammars by David Lightfoot and markedness in phonology by Keren Rice to the syntactic representation of linguistic events by Sara Thomas Rosen optionality in Optimality syntax by Gereon Müller and the nature of coordination by Ljiljana Progovac *Research Methods for Forensic Psychologists* Sarah Brown, Emma Sleath, 2015-06-26 Research Methods for Forensic Psychologists is an accessible and comprehensive textbook that introduces students to the research process in forensic psychology Adopting a problem based learning approach this book offers a how to guide to the whole research process and empowers readers to develop their own programme of research from initial vague ideas to developing a research question to carrying out a methodologically rigorous research project to disseminating the findings The text is centred on five case studies sufficiently different in nature to address the most common research methodologies Each case study is linked with a specific research question that will be used to illustrate the research process throughout the rest of the book Topics covered in the book include Design and Planning including a literature search a discussion of different sorts of data practical and feasibility issues research ethics and developing a research proposal

Conducting research including the submission of ethics proposals and responding to feedback collecting data and dealing with the problems and challenges of analysing data Dissemination of findings an overview of the different types of papers with examples listed and other methods of disseminating findings discussed such as conference presentations and the use of social media Throughout issues of common difficulty or confusion are highlighted and activities are provided for readers to consider and apply the information discussed further Additional reading sections and summaries are also provided at the end of each chapter This book is essential reading for advanced students in Forensic Psychology as well as trainees and practitioners within relevant forensic psychology organisations

Special Features of

the UN Model Convention Anna Binder, Viktoria Wöhrer, 2019-10-01 Detailed research on the UN Model Convention s

unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially

used by emerging and developing countries as a starting point for treaty negotiations Driven by the aim to achieve

consistency in the international tax treaty practice the structure and content is to a large extent similar in the UN Model and

the OECD Model However whereas the OECD has historically focused its efforts on issues mainly relevant for developed

countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for

developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the

UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN

Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services

which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to

be levied on payments to non residents when the payer of the fee is a resident of that contracting State irrespective of where

the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy

the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or

user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master s theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD s BEPS project on the UN Model *Guidebook on scientific writing with a focus on the water sector* Inyang, Hilary I., UNESCO, UNESCO Office Nairobi and Regional Bureau for Science in Africa, 2022-03-23

Survey of access and benefit-sharing country measures accommodating the distinctive features of genetic resources for food and agriculture and associated traditional knowledge Food and Agriculture Organization of the United Nations, 2021-09-01 The Commission on Genetic Resources for Food and Agriculture at its Seventeenth Regular Session requested its Secretary to prepare for review by the intergovernmental technical working groups on animal aquatic forest and plant genetic resources to produce an up to date survey of existing legislative administrative and policy approaches including best practices for ABS for the different subsectors of GRFA and traditional knowledge associated with GRFA held by indigenous peoples and local communities with the aim of identifying typical approaches and lessons learned from their implementation as well as challenges and possible solutions The current survey comprises a baseline desktop review of legislation policy and literature It provides a review of how countries address the distinctive features of GRFA and TKGRFA based on the letter of their ABS legislative administrative and policy measures rather than on how these measures have been implemented in practice It therefore does not provide an analysis of the state of implementation the challenges involved and possible solutions to these challenges As such it aims to provide a basis for future empirical research on how ABS measures work in practice for GRFA subsectors A specific objective is to provide a typology of legislative administrative and policy measures applying to ABS for GRFA and TKGRFA
