Hazardous Waste Site Operations Michael F. Waxman, 1996-04-27 A complete guide to OSHA training requirements for hazardous waste cleanup professionals. Love Canal, Times Beach, Bhopal, these and other industry-related environmental disasters provided the impetus for present-day regulations governing cleanup of hazardous waste sites and the health and safety training of workers engaged in these operations. This manual addresses the 1986 amendments to Congress's Superfund Act known as SARA and the growth in hazardous waste remediation that emerged as a result. Specifically, it deals with the OSHA standard 29 CFR 1910.120 that requires all businesses with hazardous waste operations and all remediation contractors to train their staffs on a regular basis, stressing training for managers, supervisors, scientists, and engineers. Covering all training topics mandated by OSHA's 29 CFR 1910.120, this comprehensive guide conforms point by point to OSHA's 40-hour off-site training requirement for site professionals, managers, and supervisors. Includes field-tested practical instructional material based on the author's own successful 40-hour courses at the University of Wisconsin extension program that has trained more than one thousand environmental professionals since 1986. Addresses the entire spectrum of health and safety issues, including health risks associated with specific chemicals and safe handling of hazardous materials. Demonstrates the correct use of protective gear and how to follow safe work practices. Discusses the continually changing regulatory and enforcement climate that governs the removal of hazards from waste sites. And much more. The text of choice for any hazardous site operations training program, whether taught in universities, government agencies, or industry. **Hazardous Waste Site Operations** is an excellent guide for instructors, an invaluable reference for students, and a useful resource for professionals in the field. **Air Engineering**, 1964 Includes section Air engineering newsletter superseding an earlier
