LOCKPICKING GUIDE This is the question I get most asked What lockpick do I need to pick this lock Let s first look at the various lock types before we learn how to pick them There are many lock types but I believe we should concentrate on the most common which is the type you will likely encounter in real life These locks could be the first lock you pick It can be a bit confusing because it is important to determine whether we are talking about the locking mechanism or the lock housing The term padlock refers to the housing for a lock mechanism However padlocks can be made with many locking mechanisms This guide will focus on the locking mechanism and how it works inside And most importantly what picks are required to pick an internal lock mechanism Get a copy now
