Viñuales, 2019-04-25 This Handbook is the first comprehensive account of comparative environmental law. It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points: country studies from all continents; responses to common problems including air pollution, water management, nature conservation, genetically modified organisms, climate change, and energy; chemicals waste; foundational components of environmental law systems including principles, property rights, administrative and judicial organisation, command and control, regulation, market mechanisms, informational techniques, and liability mechanisms; and common interactions of environmental protection with the broader public, private, and criminal law contexts. The volume brings together the foremost authorities in this field from around the world to provide a concise, self-contained, and technically rigorous account of environmental law as a single overall system. *Gender, Judging and the Courts in Africa* J. Jarpa Dawuni, 2021-11-29 Women judges are playing increasingly prominent roles in many African judiciaries, yet there remains very little comparative research on the subject. Drawing on extensive cross-national data and theoretical and empirical analysis, this book provides a timely and broad-ranging assessment of gender and judging in African judiciaries. Employing different theoretical approaches, the book investigates how women have fared within domestic African judiciaries as both actors and litigants. It explores how women negotiate multiple hierarchies to access the judiciary and how gender-related issues are handled in courts. The chapters in the book provide policy, theoretical, and practical prescriptions to the challenges identified and offer recommendations for the future directions of gender and judging in the post-COVID-19 era, including the role of technology, artificial intelligence, social media, and institutional transformations that can help promote women's rights. Bringing together specific cases from Kenya, Uganda, Ghana, Nigeria, Zambia, Tanzania, and South Africa, and regional bodies such as ECOWAS and the African Commission on Human and Peoples Rights, and covering a broad range of thematic reflections, this book will be of interest to scholars, students, and practitioners of African law, judicial politics, judicial training, and gender studies. It will also be useful to bilateral and multilateral donor institutions financing gender-sensitive judicial reform programs, particularly in Africa. Proportionality and Facts in Constitutional Adjudication Anne Carter, 2022-01-27 This book considers the relationship between proportionality and facts in constitutional adjudication Analysing where facts arise within each of the three stages of the structured proportionality test suitability necessity and balancing it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation The book s central focus is on how proportionality has been applied by courts in practice and it draws on the comparative experience of four jurisdictions across a range of legal systems The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages The book has three broad aims First it considers the role of facts within proportionality reasoning Second it offers procedural insights into fact finding in constitutional litigation Third the book s analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely
