Africanity and Ubuntu as Decolonizing Discourse Otrude Nontobeko Moyo, 2021-02-07 This book explores and discusses emerging perspectives of Ubuntu from the vantage point of ordinary people and connects it to human rights and decolonizing discourses It engages a decolonizing perspective in writing about Ubuntu as an indigenous concept The foregrounding argument is that one's positionality speaks to particular interests that may continue to sustain oppressions instead of confronting and dismantling them Therefore a decolonial approach to writing indigenous experiences begins with transparency about the researcher's own positionality The emerging perspectives of this volume are contextual highlighting the need for a critical reading for emerging transformative and alternative visions in human relations and social structures
