### CHAPTER 5 Section 1

#### Reading Comprehension 3

- Answers for rankings will vary.  
**Historical basis:** The two-party system is rooted in the beginnings of the U.S., when the ratification of the Constitution gave rise to the first two parties.  
**Tradition:** Most Americans accept the idea of a two-party system simply because there has always been one.  
**Electoral system:** Since only one winner per office comes out of each election, voters have only two viable choices—the candidate of the party holding office or the candidate with the best chance of replacing the current officeholder. Voters tend to think of a vote for a minor party candidate as a wasted vote. Republicans and Democrats work together in a bipartisan way to write election laws to make it hard for a minor party or independent candidate to win elective office.  
**Ideological consensus:** Compared with other countries, the U.S. has been free of longstanding disputes based on economic class, social status, religious beliefs, or national origin. As a result, there is a lot of common ground between the two major parties, although they disagree on specific policies.
- Policies supported:**  
**Democrats:** social welfare programs; government regulation of business; efforts to improve status of minorities.  
**Republicans:** depend on play of market forces in the economy; less government involvement in social welfare programs

#### Reading Comprehension 2

- a. Parties choose candidates.
