

Calibration

Your AccuGreen® 3000 spreader was calibrated at the factory. Please check the calibration as follows:

1. Adjust the macro-meter setting to 4.
2. Squared the trigger against the handle.
3. The front edge of the spreader should be flush with the calibration strip engraved on the bottom of the hopper.
4. To adjust alignment, use a visual approach to turn the black calibration screw at the front end of the control side resting from the macro-meter setting board.

Spend a few minutes on maintenance after each use

1. After each product on the spreader, close all the macro-meter lock into the package and use the package handle.
2. After each use, wash thoroughly to remove all material clinging to the spreader. And always may be required to clean to remove stubborn material. Allow the spreader to dry thoroughly in the sun.
3. Store your spreader in a clean dry place.
