This book focuses more on the recent research and development works in almost all the facets of sustainable ubiquitous computing and communication paradigm. The recent research efforts on this evolving paradigm help to advance the technologies for next generation where socio-economic growth and sustainability poses significant challenges to the computing and communication infrastructures. The main purpose of this book is to promote the technical advances and impacts of sustainability and mobile computing to the informatics research. The key strands of this book include green computing, predictive models, mobility data analytics, mobile computing optimization, Quality of Service (QoS), new communicating and computing frameworks, human-computer interaction, Artificial Intelligence (AI), communication networks, risk management, Ubiquitous computing, robotics, smart city and applications. The book has also addressed myriad of sustainability challenges in various computing and information processing infrastructures.

Automotive Computer Controlled Systems Alan Bonnick, 2007-08-15 *Automotive Computer Controlled Systems* explains the fundamental principles of engineering that lie behind the operation of vehicle electronic systems. Having obtained this knowledge, the reader will be able to make full use of the diagnostic equipment which is currently available. The book builds on the concepts contained in *Vehicle Electronic Systems and Fault Diagnosis* and gives clear steps to fault diagnosis and subsequent repair of the vehicle's electronic systems. The author discusses electronics only within the context of the vehicle systems under consideration and thus keeps theory to a minimum. Allan Bonnick has written articles for several transport vehicle journals and carries out consultancy work for the Institute of Road Transport Engineers. In addition, he has had many years teaching experience and is ideally placed to write this informative guide.

Automotive Diagnostic Systems Keith McCord, 2011 OBD expert tuner and author Keith McCord explains system architecture, function, and operation. He shows you how to use a hand-held scanner, connect it to the port connector in the car, and interpret the data. But most importantly, he shows you a practical analytical
