Johnson, 2019-04-16 An acclaimed economist reveals that school integration efforts in the 1970s and 1980s were overwhelmingly successful and argues that we must renew our commitment to integration for the sake of all Americans We are frequently told that school integration was a social experiment doomed from the start But as Rucker C Johnson demonstrates in *Children of the Dream* it was in fact a spectacular achievement Drawing on longitudinal studies going back to the 1960s he shows that students who attended integrated and well funded schools were more successful in life than those who did not and this held true for children of all races Yet as a society we have given up on integration Since the high point of integration in 1988 we have regressed and segregation again prevails Contending that integrated well funded schools are the primary engine of social mobility *Children of the Dream* offers a radical new take on social policy It is essential reading in our divided times **Research Methods in International Law** Deplano, Rossana, Tsagourias, Nicholas, 2021-07-31 This timely Handbook contains a wide ranging overview of the diverse research methods used within international law Providing an insightful examination of how international legal knowledge is analysed and adopted this Handbook offers the reader a deeper understanding on the role and place of research methods in international legal theory reasoning and practice *Holding Together* John Shattuck, Sushma Raman, Mathias Risse, 2022-05-31 A bold new assessment of the multipronged attack on rights in the United States and how to push back An

overwhelming majority of Americans agree that rights are essential to their freedom and that rights today are severely threatened. The promise of rights has been reimagined at pivotal moments in American history from the American Revolution to the Civil War to the Civil Rights Movement. Can today become another time of transformation? Holding Together is about the promise of rights as a source of American identity, the struggle to realize rights by countless Americans to whom the promise has been denied or not fulfilled, the hijacking of rights by politicians who seek power by dividing and polarizing, and the way forward in which rights can bring Americans together instead of tearing them apart. Drawing on a series of town hall meetings with representative groups of citizens across the country, discussing their concerns over rights, new national opinion polls from all demographic groups and political perspectives conducted in 2020 and 2021, and extensive research, Holding Together is a road map for an American rights revival. John Shattuck, Sushma Raman, and Mathias Risse present a comprehensive account of the current state of rights in the United States and concrete recommendations to policy makers and citizens on how to reclaim them.

Disproportionality and Social Justice in Education Nicholas Gage, Luke J. Rapa, Denise K. Whitford, Antonis Katsiyannis, 2022-10-25. This book examines disproportionality in education focusing on issues of social justice for diverse and marginalized students. It addresses disproportionality as an indicator of biased practices and uses social justice as the frame for conceptualizing disproportionality historically and as a means to improve educational practice. Chapters explore the historical issue of disproportionality in education outcomes experienced by racially and ethnically diverse students and students with disabilities, including discipline, bullying, and academic achievement, and ways in which social justice can inform policy and practice to make a positive impact, reducing disproportionality in education. Key areas of coverage include: Methodological and statistical concerns in disproportionality research in education; Reviews research and data on disproportionality in education, e.g., disciplinary exclusion, bullying, seclusion, and restraint, corporal punishment, school-based arrests, and academic achievement; Social justice as a theoretical and legal driver for change in policy and practice; Educational assessment and intervention practices designed to address disproportionality in education. *Disproportionality and Social Justice in Education* is a must-have resource for researchers, professors, and graduate students, as well as clinicians, practitioners, and policymakers across such disciplines as clinical child and school psychology, educational psychology, and teaching, and teacher education, social work, and counselling, pediatrics, and school nursing, educational policy, and politics, public health, and all interrelated disciplines.

An Ed-Tech Tragedy? Mark West, 2025-10-10 The COVID 19 pandemic pushed education from schools to educational technologies at a pace and scale with no historical precedent For hundreds of millions of students formal learning became fully dependent on technology whether internet connected digital devices televisions or radios An Ed Tech Tragedy examines the numerous adverse and unintended consequences of the shift to ed tech It documents how technology first solutions left a global majority of learners behind and details the many ways education was diminished even when technology was available and worked as intended Using tragedy as a metaphor and borrowing the organization of a three act theatrical play the book shows how technology first modes of learning introduced novel health and safety risks handed significant control of public education to for profit companies expanded invasive digital surveillance and carried detrimental environmental repercussions in addition to adversely impacting educational access equity quality and outcomes in most contexts Dedicated sections consider alternative and less technology reliant educational responses to COVID 19

disruptions that had the potential to be more inclusive and equitable The analysis further explains how pandemic models of learning are rippling beyond school closures and influencing the future of education Holistically the work invites readers to reconsider a turbulent chapter in education history and reexamine the purposes and roles of technology in education
