

Congratulations on your 8th grade graduation!

I wish I let this occasion pass without expressing my pride and happiness for all of you. I have known most of you for several years, and some of you for many years! It has been my pleasure and honor to watch you grow, learn, and become wonderful young ladies and gentlemen.

I know you are ready to move on to high school. You won't miss either every academic lesson you learned here, but you will remember how you were treated. I hope that you leave with many fond memories and this school is your home.

As you embark on your next exciting journey, here is a little "graduation" for high school:

1. Stay connected to your Creator! Pray often and live your faith. The Lord has invited you to His table, attend Mass. You are God's wonderful creation, and He has big plans for you.
2. Keep your current friends and make new ones.
3. Get involved! Join a club, team, and be active in the school's many activities. Find your passion and contribute.
4. High school can be challenging. Do your best. Stay strong and remain strong academically.
5. High school grades matter as you are building your transcript and resume from Day 1 for your future. Set goals and work towards them.
6. Work hard and always have integrity. Be honest and make choices that will make you proud of yourself. Do what is right and not what you can get away with.
7. Live a clean, wholesome life. Don't do anything that will end or change your life. Think before you act. You have a lot to look forward to after high school. Use your own brain, and don't succumb to group-think.
8. Value yourself and others always. Pray for yourself and for others.
9. The good stuff happens when you're not holding your cell phone!
10. Know you are loved, and you have people cheering for you. Keep them close and be grateful.

May your blessings continue. Please keep me in your prayers and you will remain in my mind. May God bless each of you!

Language in Writing Instruction María Estela Brisk, 2020-09-22 Accessible and engaging this book offers a comfortable entry point to integrating language instruction in writing units in grades 3-8. A full understanding of language development is necessary for teaching writing in a successful and meaningful way. Applying a Systemic Functional Linguistics (SFL) approach, Mar a Brisk embraces an educator's perspective, breaks down the challenges of teaching language for non-linguists, and demonstrates how teachers can help students express their ideas and create cohesive texts. With a focus on the needs of all students, including bilingual and English language learners, Brisk addresses topics necessary for successful language instruction and moves beyond vocabulary and grammar to address meaning-making and genre. This book provides a wealth of tools and examples for practice and includes helpful instructional resources that teachers can return to time after time. Moving from theory to practice, this teacher-friendly text is a vital resource for courses in language education programs, in-service teacher training seminars, and for pre-service and practicing English Language Arts (ELA) teachers who want to expand their teaching abilities and knowledge bases. This book features a sample unit and a reference list of instructional resources.

Hatching Results for Secondary School Counseling Trish Hatch, Whitney Triplett, Danielle Duarte, Vanessa Gomez, 2019-04-25 School counseling that makes a difference for all students. As a secondary school counselor, you're recharged with implementing a comprehensive program to promote the academic, college, career, and social-emotional development for all students. This means developing school counseling core curriculum classroom lessons, delivering engaging content to students and families, managing classroom behaviors, providing and analyzing assessments, and sharing the results with stakeholders. The good news is that you don't have to do it alone. In this guide, four experienced school counselors, national leaders, and expert trainers take you step by step through the creation, implementation, and evaluation of a high-quality Tier 1 school counseling system of supports. With a focus on proactive and prevention education through core curriculum classroom lessons, individual student planning, and schoolwide programs and activities, this practical text includes: The school counselor's role in a Multi-Tiered System of Supports; Examples to help with design, implementation, and evaluation of Tier 1 school counseling activities; Instruction around selecting curriculum and developing lesson plans and action plans; Strategies for managing student behaviors in the classroom, aligned to the school counselor's appropriate role; Alignment with the ASCA National Model; Vignettes from practicing secondary school counselors; Recommendations for including families in prevention activities; Management tools, reproducible templates, and reflective activities and process questions. You teach the academic, college, career, and social-emotional competencies students need to be successful learners. With this book's expert assistance, you'll be prepared to not only help them succeed but also demonstrate to others the impact of the school counseling program on student achievement.

Everyday Thinking Stanley Woll,2001-07-01 Appropriate as a textbook for courses in cognitive psychology or social cognition Everyday Thinking reviews the rapidly growing literature on cognition in naturalistic settings It differs from other textbooks in that where possible it focuses on thinking in real world settings rather than in controlled laboratory settings and provides detailed treatments of each of the following topics how we form impressions of and represent persons in memory how we recognize and represent faces how we reason in our day to day lives and go about solving everyday problems how we make judgments and decisions how we encode memories of events both for future action and for our own life histories and what are some of the implications of everyday knowledge and cognition for education and instruction This book presents the theoretical positions and research evidence on each of these topics and examines the generally unexplored connections among them As a result this book presents the study of cognition in a more relevant form and in a context that readers can more readily apply to their own lives
