Instructions for Evaluators

Performance evaluations are conducted by the employee's immediate supervisor at least once every 12 month period or as needed. The goal is to reach a mutual understanding of the standards of performance expected, and an overall performance rating. As the information recorded on this form will become part of the employee's personnel record, and may be used in decisions concerning advancement, future training needs, performance-related salary adjustments or even disciplinary actions, take time to think through and complete all sections.

The performance evaluation process has been divided into two parts, one for the supervisor and one for the employee. Upon receipt of this package, give the employee the self-evaluation form to complete and at the same time schedule a performance meeting within two weeks. Then complete the supervisor's section which has been divided into two sections: Major Job Elements and Performance/Customer Service Factors.

First, list and briefly describe the major elements (duties and responsibilities) of this employee's position. Then, rate this employee's performance of these major job elements and indicate with comments your justification for each rating. **YOU MUST MAKE A COMMENT WHENEVER YOU CHOOSE THE RATING "EXCEEDS EXPECTATIONS" OR "FAR BELOW EXPECTATIONS/UNSATISFACTORY"**. Next, rate this employee's performance on the performance factors listed; again you must justify a high or low grade. Note: you may give a half grade if you feel the performance is between two rating levels. Finally, give an overall rating for this employee's performance and sign the form.

After the review, please make two copies of the performance evaluation; one for your records, the other should be given to the employee. Return the original forms to the Human Resources Department.

Sample Payroll Specialist Performance Review:

Practical Human Resource Information Systems SATISH K. BAGDI, 2012-05-09 Practical Guide to Human Resource Information Systems HRIS is a comprehensive presentation on global HRIS implementations and the associated challenges faced in such global projects. It begins with the basic HR and IT concepts and guides the readers through the complete life cycle of HRIS applications spanning from planning to execution. Both HR and IT play an equal role in the development of HRIS applications. This book will help students from both HR and IT streams in assimilating the intricacies of implementation of HRIS projects. HR is one of the most popular ERP product implementation topics in today's business world. Its implementation needs a practical discussion using examples from real world. The examples, the case study and discussions in the book follow an international approach rather than discussing only a single country HRIS implementations. A real life case study that flows through various chapters of the book brings out challenges in the implementation of HR specific projects. In today's global economy HR is changing fast and dives into areas such as strategy outsourcing, mergers and acquisitions, M & A. This book covers all these areas and other topics that are relevant to today's HR world providing more value to the readers. It provides illustrations to assist readers in visualizing the topics discussed and in developing a sound understanding of the integration and data aspects of HRIS systems. This book will be useful as a text for a course in HRIS wherever prescribed for the MBA HR and MBA IT students. The book encourages self directed study and thought process based on references provided at the end of each chapter and hence will also be useful to consultants, HR professionals and IT professionals working with HR departments.
