

Dear Dr. Appleton,

It is with great pleasure that I recommend Gwen Roring for the position of Nurse at your facility. When Gwen was studying nursing, she worked many hours at our hospital and made a very positive impression on everyone. She knew her craft, she had a great rapport with patients and she was extremely responsible.

You should know that Gwen is extremely dedicated to caring for others. On more than one occasion, she would volunteer for extra shifts to help care for patients that she had built a strong bond with. We found her to be attentive and reliable in all aspects.

Gwen also has exceptional computer skills that allow her to be very versatile. She was able to assume a position of authority when the head nurse was on a different floor attending to a patient. Gwen was also very well-versed in the necessary paperwork that follows her profession. She never missed paperwork submission deadlines and filled in all paperwork completely.

We had always wished that Gwen would have stayed in our area and stayed on as a full-time nurse here. But her life's path took her other places and we wish her nothing but the best. If you have questions, you can email me at erin.gord@email.com or call me at 555-456-7669.

Sincerely Yours,

Erin W. Gord

Handling the Sick Tom Craig Olson,Eileen Walsh,2004 Handling the Sick is the story of 838 women who entered St Luke s Hospital Training School for Nurses St Paul Minnesota from 1892 1937 Their story addresses a fundamental question about nursing that has yet to be answered is nursing a craft or a profession It also addresses the colliding visions of nursing factions that for more than a century have disagreed on the inherent traits and formal preparation a nurse has needed The women of St Luke s were engaged in the most practical of all occupations open to women a rare one in which their strength experience and skill were prized above all else They firmly believed that the key to success in nursing was apprenticeship training Apprenticeship not schooling was the cornerstone on which all else rested This study unites the opposing visions of those who led nursing toward professional status and those who saw it as a craft Physicality strength of will an abiding emphasis on practicality and a hierarchy based on a deep pride in craft skills have been essential elements of nursing Nursing can look to its complex history to develop an integrated model of nursing one drawing on both academic training and the immediate realities involved in handling the sick BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
