**REVISION
BOOKLET**

TERM 3 & 4

This revision program is designed to assist you in revising the critical content and skills covered during Terms 3 and 4. The purpose is to prepare you to understand the key concepts and to provide you with an opportunity to establish the required standard and the application of the knowledge necessary to succeed in the GRADE 11 examination. The content in this revision booklet is mostly presented by means of mind maps. This will help you to understand the content easier and also see the relationship between the topics. In most cases, content is integrated with mapwork. This revision booklet should be used in conjunction with the lessons of term 3 and 4.

Paper For Term Grade 11:

Handbook of Paper and Board Herbert Holik, 2013-03-25 Papermaking is a fascinating art and technology. The second edition of this successful 2 volume handbook provides a comprehensive view on the technical, economic, ecological and social background of paper and board. It has been updated, revised and largely extended in depth and width, including the further use of paper and board in converting and printing. A wide knowledge basis is a prerequisite in evaluating and optimizing the whole process chain to ensure efficient paper and board production. The same is true in their application and end use. The book covers a wide range of topics: Raw materials required for paper and board manufacturing such as fibers, chemical additives and fillers; Processes and machinery applied to prepare the stock and to produce the various paper and board grades including automation and trouble shooting; Paper converting and printing processes; book preservation; The different paper and board grades as well as testing and analysing fiber suspensions; paper and board products and converted or printed matters; Environmental and energy factors as well as safety aspects. The handbook will provide professionals in the field e.g. papermakers as well as converters and printers, laymen, students, politicians and other interested people with the most up to date and comprehensive information on the state of the art, techniques and aspects involved in paper making, converting and printing.
