Content by experts *The Sage Handbook of Sociology of Education* Mark Berends, Barbara Schneider, Stephen Lamb, 2023-12-06 The Sage Handbook of Sociology of Education is an international and comprehensive groundbreaking text that serves as a touchstone for researchers and scholars interested in exploring the intricate relationships between education and society. Leading sociologists from five different continents examine major topics in sociology from a global perspective. This timely thought-provoking Handbook features contributions from leading and emerging sociology scholars who provide their own cultural and historical perspectives on diverse yet universal topics; these include educational policy, social stratification, and cross-national research. 39 Chapters delve into the pressing issues faced by our global society, such as the effects of residential mobility on educational outcomes, gender and ethnic inequalities, and the impact of COVID-19 on early childhood education. Readers will gain a multifaceted view of the contours of educational inequality from various international perspectives and focusing on country differences, as well as recommendations for expanding the practices, programs, and policies that could reduce the rising tide of inequities, especially for populations most at risk. This Handbook offers rich, diverse perspectives on the interplay between education, social inequality, and human rights around the world, making it an invaluable resource for students, researchers, and practitioners across a range of fields, including sociology, education, and social policy. PART 1 Education and Persistent Inequality PART 2 Social Family Contexts PART 3 Schools Educational Policy PART 4 Neighborhoods Community PART 5 Education Innovation in a Global Context **Science Outside the Laboratory** Marcel Boumans, 2015 Social science experiments often cannot be analyzed under controlled conditions as many take place outside a laboratory. None the less, measurement provides scientists with a sound basis for collecting and analyzing the results of field research. *Science Outside the Laboratory* examines the relationship between measurement theory and field investigations through the philosophy of science. **Digital Economy, Business Analytics, and Big Data Analytics Applications** Saad G.
