**Language of Instruction in Tanzania and South Africa - Highlights from a Project** ,2010-01-01 This book is based on chapters in a series of four books from the first five years 2002 2006 of the Language of Instruction in Tanzania and South Africa LOITASA project LOITASA is a NUFU funded Norwegian University Fund project which began in January 2002 and will continue through to the end of 2011 The chapters reflect the state of the research at the end of the first five years of LOITASA in 2006 and were selected by reviewers independent of the project The selection of chapters brought together bring to the forefront the dilemmas facing developing countries as they seek to position themselves in an increasingly interconnected global system while at the same time maintaining a sense of national and regional identity The chapters in this collection reflect both positive outcomes when the medium of instruction is a widely known language as well as the challenges of mother tongue instruction in countries where historically a powerful language like English has dominated The four LOITASA books in this series from which the chapters in this book are drawn are Language of instruction in Tanzania and South Africa LOITASA published by E Zubeida Desai the South African project leader and Martha Qorro who is on the project steering committee in Tanzania

**Changing Teaching, Changing Times** Jonathan Clark,Cedric Linder,2006-01-01 This is the story of a science teacher and her work in an over crowded and under resourced township secondary school in contemporary South Africa While set firmly in the present it is also a journey into the past shedding fresh light on how the legacy of apartheid education continues to have a major influence on teaching and learning in South Africa The book has a compelling story line with extensively referenced notes at the end of each chapter It is intended for a wide audience which includes general readers policy makers teacher educators researchers and most importantly practitioners in the field For while it reminds us of the powerful constraining role that both context and students play in mediating a teacher s practice it also attests to the power of individual agency As such it is a celebration of the actions of an ordinary teacher whose willingness to leave the well worn paths of familiar practice stands as a beacon of possibility for contexts which seem so often to be devoid of hope
