Probation Officer Trainee Study Guide For 2015:

Handbook on Pretrial Justice Christine S. Scott-Hayward, Jennifer E. Copp, Stephen Demuth, 2021-09-20 The Handbook on Pretrial Justice covers the front end of the criminal legal system from pretrial diversion to pretrial detention or release. Often overlooked, the decisions made at the earliest phases of the criminal legal system have huge implications for defendants and their families, the community, and the system itself, and impact the entire criminal legal system. This collection of essays and reports of original research explores the complexities of pretrial decisions and practices and includes chapters in the following broad areas: the consequences of detention, pretrial decision making, community supervision, and risk assessment. The book also includes a section looking at pretrial justice outside of the U.S. Each chapter summarizes what is known, identifies the gaps in the research, and discusses the theoretical, empirical, and policy implications of the research findings. This is Volume 6 of the American Society of Criminology's Division on Corrections and Sentencing handbook series. The handbooks provide in-depth coverage of seminal and topical issues around sentencing and correction for scholars, students, practitioners, and policymakers. Financial Services and General Government Appropriations for 2017: Consumer Product Safety Commission; General Services Administration; Office of Personnel Management; Federal Communications Commission; Outside witness testimony United States. Congress. House. Committee on Appropriations. Subcommittee on Financial Services and General Government, 2016. *Community Risk and Protective Factors for Probation and Parole Risk Assessment Tools: Emerging Research and Opportunities* Dorch, Edwina Louise, 2019-10-25 The staff in probation agencies rely heavily on a long list of case plan agreements to get their clients to obey the laws. Yet the list of rules create overwhelming challenges for those on probation and parole, especially those who suffer from drug addiction, mental illness, and physical and cognitive disabilities. Though millions of dollars in grants and funding continue to be provided as a solution, the rate of recidivism is still rising. *Community Risk and Protective Factors for Probation and Parole Risk Assessment Tools: Emerging Research and Opportunities* is an essential research publication that explores tools for predicting recidivism rates among incarcerated individuals. The study provides evidence for an alternative explanation for a still-prevailing notion that recidivism is primarily a result of personal internal failings, such as mental illness or cognitive impairment, versus external societal ones. Featuring a wide range of topics such as affordable housing, policy reform, and adult education, this book is ideal for criminologists, sociologists, law enforcement, corrections officers, wardens, therapists, rehabilitation counselors, researchers, policymakers, criminal justice professionals, academicians, and students. **Professional Disobedience in Probation** Asbjørn Storgaard, 2025-06-13 This book comprises an in-depth and highly inclusive ethnographic study of daily life in two local Danish probation offices. With a special emphasis on manual-based rehabilitative interventions, the book explores the interactions between probation officers and citizens on probation serving conditional sentences or performing community service, as well as the professionals' rationales behind their rehabilitative efforts. By presenting ethnographic findings that

indicate a divergence between the envisioned trust based interactions and the reality of manual based scripted practices within the Danish probation service the analyses reveal how rehabilitative interactions may seem choreographed with roles predetermined by an asymmetric social hierarchy This framework portrays the client as inherently obstinate unpredictable and cast as an irresponsible subject Despite these challenges the book underscores probation officers genuine belief in the transformative power of motivational programs More precisely it assesses the potential for manual based or scripted rehabilitative interventions to genuinely inspire participatory citizenship among disenfranchised clients Building on these empirically informed discussions the book ultimately endeavors to provide a positive and instructive conceptualization of the diverse activities in which probation officers acknowledging the limitations of their scripted interactions with clients appear to transgress their manual based mandate and perform professional disobedience Given the broad applicability of the concept of professional disobedience extending beyond probation to other social service practices navigating the intersection of help and control this book is intended for a wide array of researchers students practitioners and policymakers with an interest in punishment disenfranchisement and rehabilitation This book is essential reading for those engaged in probation criminal justice ethnography and Nordic criminology *Handbook on Risk and Need Assessment* Faye Taxman, 2016-11-10 The Handbook on Risk and Need Assessment Theory and Practice covers risk assessments for individuals being considered for parole or probation Evidence based approaches to such decisions help take the emotion and politics out of community corrections As the United States begins to back away from ineffective expensive policies of mass incarceration this handbook will provide the resources needed to help ensure both public safety and the effective rehabilitation of offenders The ASC Division on Corrections Sentencing Handbook Series will publish volumes on topics ranging from violence risk assessment to specialty courts for drug users veterans or the mentally ill Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research **The Routledge Handbook on Global Community Corrections** Ioan Durnescu, James M. Byrne, Benjamin J. Mackey, Faye S. Taxman, 2024-06-25 The Routledge Handbook on Global Community Corrections assesses and analyzes the status of community corrections systems around the world highlighting inter regional and intra regional variations in their design implementation and impact on policy and practice Covering both probation and parole this handbook brings together leading international experts to examine the myriad of systems developed under the broad heading of community corrections to manage community corrections populations at the pre adjudication adjudication and post release stages Chapters are designed to consider the following questions How many offenders are placed in community corrections systems around the globe What are the key design features of these community corrections systems What do we know about the effectiveness of community corrections within and across global regions This is an essential reference text for all those engaged with community corrections probation and post release policy in criminal justice An Almanac of Contemporary and Continuum of Jurisprudential Restatements 'lai Oshitokunbo
