Reclaimed In Ecstasy Xtc Resorts :

Synthetic Panics Philip Jenkins, 1999-07 America has a long history of drug panics in which countless social problems have been blamed on the devastating effects of some harmful substance In the last forty years such panics have often focused on synthetic or designer drugs like methamphetamine PCP Ecstasy methcathinone and rave drugs like ketamine and GHB Fear of these substances has provided critical justification for the continuing war on drugs *Synthetic Panics* traces the history of these anti drug movements demonstrating that designer chemicals inspire so much fear not because they are uniquely dangerous but because they bring into focus deeply rooted public concerns about social and cultural upheaval Jenkins highlights the role of the mass media in spreading anti drug hysteria and shows how proponents of the war on drugs use synthetic panics to scapegoat society's others and exacerbate racial class and intergenerational conflict
