Penguins are birds that live in the coldest parts of the world. They are black with white stomachs and have small wings. They move across the ice by waddling slowly on their little feet with their wings out to the side. Penguins can not fly even though they have wings. They use their wings to balance them as they waddle across the ice. Their bodies are also very good at keeping the penguin warm in the cold weather. Penguins are very good at swimming and use their bodies to move easily through the water. Penguins need to be good swimmers because they eat mostly fish and sea animals. When they catch their food they swallow it whole! They also need to use their strong bodies to get away from seals and sharks because seals and sharks eat penguins. There are lots of different types of penguins and they come in all different sizes and shapes. We all need to make sure we take good care of our world because oil spills and global warming can destroy the penguin's home.

The Most Wonderful Writing Lessons Ever Barbara Mariconda, 1999 Inventive activities give teachers details they need to present engaging lesson on writing an entertaining beginning building suspense adding detail developing story endings and using dialogue effectively Wake kids up to good writing skills Illustrations throughout

**The Writing Revolution** Judith C. Hochman, Natalie Wexler, 2017-07-27 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There's no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content

**Multiple Worlds of Child Writers** Anne Haas Dyson, 1989 Based on a two year study of first graders at a magnet school in the San Francisco Bay Area Multiple Worlds of Child Writers Friends Learning to Write provides an important missing link in the study of emergent literacy the peer group and the classroom contexts that surround it Using four richly detailed case studies the author portrays the process through which Margaret the teacher and her children form a community one supported by and supporting of the children's growth as writers Dyson offers new perspectives by displaying the quality of life in the classroom

through children's talk drawings and writing The theoretical framework presented here for understanding children's growth moves what is usually considered background to the foreground for study Most works on children's writing stress that children must disembed or decontextualize their written texts from dependency on other symbolic media and other people Dyson however shows that to develop as writers children's text must become progressively more embedded in the social affective and intellectual parts of their lives The book also emphasizes the nature of the classroom rather than the home as a distinctive context for early literacy growth Moreover the classroom is an urban one that includes children from diverse social and ethnic backgrounds The classroom and children whose lives fill this book challenge current thinking about such critical issues as the developmental links between writing and other symbol systems sequence and variability in early writing growth the relationship between form and function in young children's writing and the development of literary language This book is a must for early childhood educators reading and language arts specialists and scholars researchers in the field of literacy

*Step Up to Writing, Step Into Summaries* Rowena Velasco, 2009 Research question s How will teaching and using outlining as a planning strategy impact the organization of second grade students summary writing 1 How will the content quality of student summary writing improve after teaching modeling and scaffolding the use of outlines and writing frames 2 How will this research on second graders writing organization impact a teacher's perceptions about teaching writing Research activities This research explores the use of outlines as a planning strategy to facilitate second grade students writing and impact the organization and content quality of students summary writing Context The study took place in a second grade self contained classroom composed of a diverse group of students with a wide range of academic needs The intervention targeted six students who represented a continuum of writing skills and abilities Proficient Basic Below Basic One of the six focus students was an English Language Learner and one was receiving additional services for language development Methods and data The intervention occurred over a course of nine weeks and comprised of sixteen writing sessions Session activities ranged from whole class direct instruction on intervention components small group brainstorming and practice with Step Up to Writing Auman 2003 graphic organizers and independent application of outlines and writing of drafts Data sets included pre and post parent surveys student writing samples teacher observations and teacher created newspapers documenting the students work and community's responses Results From the analysis of preliminary and outcome data students demonstrated growth in their summary writing Improvements varied but were noted in both the quality of structure and content of writing Improvement in organization was demonstrated through increase in use of transition words and appropriate order of sentence structures improvement in content quality was demonstrated through increase in details and explanation example sentences as well as the strength of support in addition overall student self efficacy was shown to improve through teacher observation Conclusion The inquiry findings suggest that targeting a writing strategy with the use of supplements from a prescribed writing program such as teaching and using informal outlines as a

planning strategy prior to drafting paragraphs may work towards improving the structure and organization of a paragraph Findings suggest that strategies working to improve the organization of writing may also work to enhance the content quality of student work In addition home school connections and teacher perceptions about teaching writing may be reinforced and strengthened through the implementation of a targeted intervention Grade level Elementary Second Grade Data collection methods Parent surveys teacher observations student writing samples parent reflections Curriculum area s English Language Arts Writing Instructional approaches Direct instruction writing collaboration graphic organizers outlining writing summary school community Teaching Reading Rachel L. McCormack,Susan Lee Pasquarelli,2009-12-09 Elementary teachers of reading have one essential goal to prepare diverse children to be independent strategic readers in real life This innovative text helps preservice and inservice teachers achieve this goal by providing knowledge and research based strategies for teaching phonemic awareness phonics fluency vocabulary all aspects of comprehension and writing in response to literature Special features include sample lessons and photographs of literacy rich classrooms Uniquely interactive the text is complete with pencil and paper exercises and reproducibles that facilitate learning making it ideal for course use Readers are invited to respond to reflection questions design lessons and start constructing a professional teaching portfolio **The Summary**
