**Secondary School English Education in Asia** Bernard Spolsky, Kiwan Sung, 2015-03-27 Continuing on from the previously published Primary School English Language Education in Asia From Policy to Practice Moon Spolsky 2012 this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul Korea. It surveys the current status, practices, challenges and future directions of Secondary English education in 11 diverse countries: Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam, and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. Secondary School English Education in Asia From Policy to Practice critically analyses both sides of the English language debate from advantages to complications in its chapters including Educating for the 21st Century, The Singapore Experience, Miles to Go, Secondary Level English Language Education in India, English Language Education Innovation for the Vietnamese Secondary School, The Project 2020, Exploring the Value of ELT as a Secondary School Subject in China, A Multi-goal Model for English Curriculum. Learning from Shanghai Charlene Tan, 2012-11-27 The Shanghai school system has attracted worldwide attention since its impressive performance in the Programme for International Student Assessment (PISA) in 2009. The system ranks as a stunning success according to standards of the Organisation for Economic Co-operation and Development (OECD). Shanghai also stands out for having the world's highest percentage of resilient students: students from socio-economically disadvantaged backgrounds who emerge as top performers. Learning From Shanghai: Lessons on Educational Success offers a close-up view of the people and the policies that have achieved such world-class performance. Based on research and personal observation gathered during the author's recent field work with school principals, teachers, and students, this book explores the factors that explain Shanghai's exceptional success in education. The approach combines high standards of scholarly research and analysis with the author's unique personal insights, as evidenced by chapters entitled Education is Filling a Bucket and Lighting a Fire, and Tiger Mothers' Dragon Children. Drawing on her experience as an education professional and a teacher of teachers, Charlene Tan thoroughly examines and analyzes the people, the policies, and the practices that distinguish Shanghai educators. The contents include comprehensive details on the Shanghai approach to quality education, from discussion of the balance between centralization and decentralization to school autonomy and accountability, to testing policy and professional development for teachers. The book includes detailed tables on curriculum and school performance targets, sample appraisal forms for teachers and students, and dozens of photographs. The author is
