Secret Choices A Tale Of Healing 1:

These Things Hidden Heather Gudenkauf, 2013-10-29 Allison Glenn tried to hide what happened that night and failed. The consequence: A prison sentence. Now she's free. But secrets have a way of keeping you locked up. When teenager Allison Glenn is sent to prison for a heinous crime, she leaves behind her reputation as Linden Falls' golden girl forever. Her parents deny the existence of their once perfect child. Her former friends exult her downfall. Her sister Brynn faces whispered rumors every day in the hallways of their small Iowa high school. It's Brynn, shy, quiet Brynn, who carries the burden of what really happened that night. All she wants is to forget Allison and the past that haunts her. But then Allison is released to a halfway house and is more determined than ever to speak with her estranged sister. Now their legacy of secrets is focused on one little boy. And if the truth is revealed, the consequences will be unimaginable for the adoptive mother who loves him, the girl who tried to protect him, and the two sisters who hold the key to all that is hidden.

All the Things We Never Knew Sheila Hamilton, 2015-10-13 A reporter chases the biggest story of her life: her husband's descent into mental illness. Even as a reporter, Sheila Hamilton missed the signs as her husband David's mental illness unfolded before her. By the time she had pieced together the puzzle, it was too late. Her once brilliant and passionate partner was dead within six weeks of a diagnosis of bipolar disorder, leaving his wife and nine-year-old daughter without so much as a note to explain his actions, a plan to help them recover from their profound grief, or a solution for the hundreds of thousands of dollars in debt that they would inherit from him. *All the Things We Never Knew* takes readers on a breathtaking journey from David and Sheila's early romance through the last three months of their life together and into the year after his death. It details their unsettling spiral into the world of mental illness, examines the fragile line between reality and madness, and reveals the true power of love and forgiveness.

The Three "Only" Things Robert Moss, 2010-10-06 Have you ever said something was only a dream, only a coincidence, or only your imagination? In this book, you'll discover that these "only things" can be keys to finding and living your bigger story. You'll learn to tap into the nine powers of dreaming, the nine rules of coincidence, and the seven uses of imagination. You'll be inspired by stories of how innovators and world changers have used these gifts, and you'll learn wonderful games to help you access your intuition, heal yourself, and bring joy to your everyday life. Tales Things Tell Finbarr Barry Flood, Beate Fricke, 2023-11-21 How can we understand the past in the absence of written records? Pre-modern histories of cross-cultural exchange pose a particular problem for medieval historians. They are marked by the long-distance mobility of concepts, individuals, and materials, and many of them cannot be reconstructed from the standard source texts on which historians usually depend. They exist without named makers, both outside and beyond official

documents and court chronicles The same is true of artisans responsible for crafting objects whose circulation and reception defined aesthetic economic and technological networks that may not have conformed to political or sectarian boundaries Authored by two leading medieval historians of the Middle East Africa and Europe *Object Lessons* addresses the gaps in medieval sources and modern scholarship arguing for the archival value of objects images and monuments Flood and Fricke examine six case studies that focus on the twelfth and thirteenth centuries From the stone carvings at the churches of Lalibela Ethiopia which have no textual documentation to medicinal bowls from Iraq for which some data can be gathered from unassociated but contemporary sources these studies show how imagery and objects traveled across continents The authors connect the histories of medieval Europe Africa and west Asia and raise significant questions about out of place objects and how in the absence of substantial archival material we might write their histories While there have been many publications on the histories of global circulation most of them focus on the early modern period in Europe By moving away from histories with abundant written archival material *Object Lessons* ventures far beyond the narratives of Europe and into complex cross cultural and intercontinental histories of objects and images
