**The Secret History of the World** Mark Booth, 2010-02-23 This New York Times bestselling work reimagines world history through the belief systems of Freemasons Rosicrucians Kabbalists and others They say that history is written by the victors But what if history as we know it written by the wrong people What if everything we ve been told is only part of the story In this groundbreaking and controversial work Mark Booth embarks on an enthralling tour of our world s secret histories Booth starts from a dangerous premise That the stories put forward by the world s various cults and mystical traditions are true From there he relates a deeply provocative alternate history of the past 3 000 years From Greek and Egyptian mythology to Jewish folklore from Christian cults to Freemasons from Charlemagne to Don Quixote from George Washington to Hitler Booth shows that history needs a revolutionary rethink and he has 3 000 years of hidden wisdom to back it up

**Summary of Mark Booth's The Secret History of the World** Everest Media, 2022-06-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The idea of mental events generating physical effects may at first seem counter intuitive but in reality it s something we experience every day For example when I think about stroking someone s cheek a pulse jumps a synapse in my brain something like an electrical current burns down a nerve in my arm and my hand moves 2 The universe that this book describes is different because it was made with humankind in mind It was created by God but he allowed his reflections humans to develop and grow over time 3 The universe is anthropocentric It has nurtured us through the centuries

cradled us and helped the unique thing that is human consciousness to evolve When you cry out the universe turns towards you in sympathy 4 In the universe of the secret societies a coin flipped in strict laboratory conditions will still land heads up in 50 percent of cases but these laws only apply when all human subjectivity has been deliberately excluded In the normal run of things when human happiness and hopes for self fulfillment depend on the outcome of the roll of the dice the laws of probability are bent

**The Secret History of the World** Jonathan Black,2007 The book is based on twenty years research and crucially the author has been helped to understand what is encoded in key texts by a high level initiate of more than one secret society in one case initiated to the highest degree Leonardo Newton Washington Napoleon and an astonishing number of the great men and women who have made history are shown to have used the secret techniques to achieve altered states that have been nurtured and preserved by the societies There they believe they access a higher intelligence and see the world as it really is Great works of art scientific discoveries and historic decisions are shown to have arisen out of these altered states and with a remarkable unanimity of purpose This history is crammed with more esoteric believe it or not than any book since Blavatsky's *The Secret Doctrine* but it does also have a serious philosophical undertow which is the suggestion that with a slight shift in consciousness the world and its history can be seen to be very different to what we have been brought up to believe

**Secret Societies and Classic Literature** John T. Caswell,2021-10-15 *Secret Societies and Classic Literature* is about much more than the connections between some of the greatest authors in literary history and the covert organizations they were associated with It also encompasses sacred geometry science the ancient wisdom those authors drew on for their inspiration and how that wisdom is so relevant in contemporary society It is about prophets their visions and the probable stimulus for their vivid imaginations and creative genius It is also about political intrigue and upheaval outlaws outcasts sexual scandals espionage and hallucinogenic substances Why does the number nine indicate the possible intelligent design of the universe Why are snakes worshiped in ancient cultures that were separated by thousands of miles How did Jonathan Swift predict Mars's two moons a century and a half before their existence was confirmed Did Christopher Marlowe plot to overthrow Queen Elizabeth and how and why was he killed Did William Blake's vision of the universe's creation mirror that of lost Gnostic texts that were undiscovered until 1945 What was Francis Bacon's true relationship to William Shakespeare and his works This book takes a closer look at all these questions and reveals much more about the authors and the intriguing lives they led en route to literary immortality

**Transhumanism** David Livingstone,2015-09-02 Transhumanism is a recent movement that extols man s right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA s mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

The Abba Tradition Michael Hattwick,2020-08-18 The ABBA Tradition is the spiritual and mystical tradition that lies deep within and behind western religions and modern cultures It is the worldview that is the source substance and infrastructure of Judaism and Christianity

It is the one great tradition behind the Hebrew and Greek languages the Old and New Testaments ancient religions and modern science Whether you call it Kabbalah the Four World Tradition or something else it transcends the separation between the historic faiths and more importantly teaches a way of reconciliation and reunion This book helps Christians discover the profound Jewish tradition that Jesus of Nazareth lived and taught and also highlights one of the greatest Jews of all time Joshua be Miriam of Nazareth who first brought the Gentile nations to the holy one of Israel Heal the wounds that separate us one from another Jew from Christian brother from sister and discover the interrelated worlds of physicality psychality spirituality and divinity with the wisdom in this book **Cancer and the New Biology of Water** Thomas

Cowan,2019-09-24 When President Nixon launched the War on Cancer with the signing of the National Cancer Act of 1971 and the allocation of billions of research dollars it was amidst a flurry of promises that a cure was within reach The research establishment was trumpeting the discovery of oncogenes the genes that supposedly cause cancer As soon as we identified them and treated cancer patients accordingly cancer would become a thing of the past Fifty years later it s clear that the War on Cancer has failed despite what the cancer industry wants us to believe New diagnoses have continued to climb one in three people in the United States can now expect to battle cancer during their lifetime For the majority of common cancers the search for oncogenes has not changed the treatment We re still treating with the same old triad of removing surgery burning out radiation or poisoning chemotherapy In *Cancer and the New Biology of Water* Thomas Cowan MD argues that this failure was inevitable because the oncogene theory is incorrect or at least incomplete and based on a flawed concept of biology in which DNA controls our cellular function and therefore our health Instead Dr Cowan tells us the somatic mutations seen in cancer cells are the result of a cellular deterioration that has little to do with oncogenes DNA or even the nucleus The root cause is metabolic dysfunction that deteriorates the structured water that forms the basis of cytoplasmic health Despite mainstream medicine s failure to bring an end to suffering or deliver on its promises it remains illegal for physicians to prescribe anything other than the standard of care for their cancer patients despite the fact that gentler more effective and more promising treatments exist *Luciferic Verses* Eric Cunningham,2023-02-07

It is a significant momentous fact that in the third millennium before Christ an incarnation of Lucifer in the flesh actually took place in the east of Asia And from this incarnation of Lucifer in the flesh for this being became a teacher there went forth what is described as the pre Christian pagan culture that still survived in the gnosis of the earliest Christian centuries Rudolf Steiner *The Influences of Lucifer and Ahriman* In the West today Laozi who lived sometime between the 6th and 4th centuries BC is perhaps the best known along with Confucius ancient Chinese philosopher owing to numerous modern renderings of his *Daodejing* or *Tao Te Ching* Eric Cunningham relates the substance of Laozi s classic work to modern philosophers and thinkers especially Rudolf Steiner and his esoteric cosmology and philosophy drawing significant and surprising parallels and contrasts with regard to Steiner s modern path of inner development and to aspects of popular culture In doing so he also sheds light on the evolution of

consciousness and the universality of Laozi's wisdom of more than two millennia ago Cunningham combines a new translation of the Chinese classic Daodejing with a unique interpretation of the Dao for today innovatively employing perspectives of Rudolf Steiner's Anthroposophy interwoven with esoteric world history Inspirations for this singular reading of the Daodejing includes the suggestion by contemporary esoteric scholars that the mythical Yellow Emperor of Chinese history was a human incarnation of the spirit called Lucifer in the West This argument has been used to explain the ways in which demigods have inserted themselves into the earthly sphere to affect human evolution and history This theory resonates with certain readings of Genesis 6 and the idea that fallen angels have penetrated the human world and promoted the establishment of ruling classes and elite bloodlines throughout history The Luciferic Verses considers such claims from the perspective of esoteric history The author evaluates them on the basis of their convergence with kindred concepts including Zen enlightenment mysticism and the simulation hypothesis depicted in the Matrix films revealing the activities and historical implications of Gnosticism He makes a bold case for this common thread in various consciousness only concepts of mind from Plato and the ancient Skeptics to Daoism Zen and even the idealism of the 1960s leading directly to postmodern hypotheses of digital consciousness Today philosophers are exploring such topics as virtual reality and digital simulation as new ways of discussing the contours of reality suggested in the Daodejing Rather than leading us to a more humanistic vision of reality as the Daoist scholars traditionally maintain this theory of mind might be the root of a systematic anti humanist impulse that has operated throughout world history The Luciferic Verses offers fresh perspectives on Laoze's classic guide to life and inner development describing its relevance and meaning for today's cultural milieu and modern esoteric thought
