Secretary With Benefits For The Billionaire English Edition:

The Empire Trap Noel Maurer, 2013-08-25 How the United States became an imperial power by bowing to pressure to defend its citizens overseas investments Throughout the twentieth century the U S government willingly deployed power hard and soft to protect American investments all around the globe Why did the United States get into the business of defending its citizens property rights abroad The Empire Trap looks at how modern U S involvement in the empire business began how American foreign policy became increasingly tied to the sway of private financial interests and how postwar administrations finally extricated the United States from economic interventionism even though the government had the will and power to continue Noel Maurer examines the ways that American investors initially influenced their government to intercede to protect investments in locations such as Central America and the Caribbean Costs were small at least at the outset but with each incremental step American policy became increasingly entangled with the goals of those they were backing making disengagement more difficult Maurer discusses how all the way through the 1970s the United States not only failed to resist pressure to defend American investments but also remained unsuccessful at altering internal institutions of other countries in order to make property rights secure in the absence of active American involvement Foreign nations expropriated American investments but in almost every case the U S government s employment of economic sanctions or covert action obtained market value or more in compensation despite the growing strategic risks The advent of institutions focusing on international arbitration finally gave the executive branch a credible political excuse not to act Maurer cautions that these institutions are now under strain and that a collapse might open the empire trap once more With shrewd and timely analysis this book considers American patterns of foreign intervention and the nation s changing role as an imperial power

Vacationing in Dictatorships Adelina Stefan, 2024-12-15 Vacationing in Dictatorships examines the political effects of international tourism in socialist Romania and Francoist Spain in the postwar era Despite sharp economic and political differences between the two dictatorial regimes at the start of the Cold War significant similarities existed as both states took advantage of international tourism to improve their image abroad and pursued processes of economic modernization to acquire hard currencies By the end of the 1970s though the two countries achieved rather different results in terms of tourism development despite the fact that both shared many features in the 1940s and 1950s By comparing the rise and evolution of international tourism on different sides of the Iron Curtain Adelina Stefan provides a different assessment of the geopolitics of postwar Europe that further refines the Cold War s geographies separating Eastern and Western Europe As a result Vacationing in Dictatorships reveals a new perspective on the Cold War that reveals not only the developmental similarities between Eastern and Southern Europe but also the ideological struggle that pitted socialist East against capitalist West

Philanthropy Paul Valley, 2020-09-17 This is the definitive book on philanthropy its history contradictions and future John Gray Emeritus Professor of European Thought London School of Economics Good books lay

out the lie of the land Important books change it This book is both Giles Fraser priest journalist and broadcaster The super rich are silently and secretly shaping our world In this groundbreaking exploration of historical and contemporary philanthropy bestselling author Paul Valley reveals how this far reaching change came about Vivid with anecdote and scholarly insight this magisterial survey from the ancient Greeks to today s high tech geeks provides an original take on the history of philanthropy It shows how giving has variously been a matter of honour altruism religious injunction political control moral activism enlightened self interest public good personal fulfilment and plutocratic manipulation Its narrative moves from the Greek man of honour and Roman patron via the Jewish prophet and Christian scholastic through the Elizabethan machiavel Puritan proto capitalist Enlightenment activist and Victorian moralist to the robber baron philanthropist the welfare socialist the celebrity activist and today s wealthy mega giver In the process it discovers that philanthropy lost an essential element as it entered the modern era The book then embarks on a journey to determine where today s philanthropists come closest to recovering that missing dimension Philanthropy explores the successes and failures of philanthrocapitalism examines its claims and contradictions and asks tough questions of top philanthropists and leading thinkers among them Richard Branson Eliza Manningham Buller Jonathan Ruffer David Sainsbury John Studzinski Bob Geldof Naser Haghamed Lenny Henry Jonathan Sacks Rowan Williams Nigaire Woods and the presidents of the Rockefeller and Soros foundations Rajiv Shah and Patrick Gaspard In extended conversations they explore the relationship between philanthropy and family faith society art politics and the creation and distribution of wealth Highly engaging and meticulously researched Paul Valley s authoritative account of philanthropy then and now critiques the excessive utilitarianism of much modern philanthrocapitalism and points to how philanthropy can rediscover its soul **The**
