McPherson, 2003 Gender and Sexuality Diversity in a Culture of Limitation Tania Ferfolja, Jacqueline Ullman, 2020-05-10 Gender and Sexuality Diversity in a Culture of Limitation provides an outstanding and insightful critique of the ways that contemporary education is impacted by a range of political social and cultural influences that inform the approaches that schools take in relation to gender and sexuality diversity By applying feminist poststructural and Foucauldian frameworks the book examines the ongoing impact of broader socio cultural discourse on the lives of gender and sexuality diverse students and teachers Beginning with an overview of the impact of how a culture of limitation is realised in Australia the focus moves beyond this context to examine state and federal policies from comparable societies in countries including the USA and the UK and their effect on the production of knowledges and what's permissible to include in educational curriculum This research driven book thus provides a comparative international overview of the current state of gender and sexuality diversity in schools and convincingly demonstrates that despite some empowerment of gender and sexuality diverse individuals silencing and marginalization remain powerful forces This book will be of great interest to graduate and postgraduate students academics professionals and policy makers interested in the field of gender and sexuality in education It is essential reading for those involved in pre service and in service teacher education diversity education the sociology of education as well as education more generally **World**, 1997 *Korean War Comic Books* Leonard Rifas, 2021-04-30 Comic books have presented fictional and fact based stories of the Korean War as it was being

Vesperman, Anne Aydinian-Perry, Matthew T. Missias, Whitney G.

Blankenship, 2023-01-01 It is not difficult to argue that the social sciences are in a period of transition Our day to day lives have been marked by uncertainty as our social lives have vacillated wildly between highs and lows tensions between fellow citizens have heightened along ideological fault lines and educators have been placed squarely at the center of public discourses about what and how we should be teaching By any measure we are living in a time where every moment seems to be rife with high stakes realities that must be navigated Ladson Billings 2020 called on educators to reimagine education and contest the notion of a return to normal In the current highly polarized context where we see multiple competing narratives rather than promoting a return to normal or business as usual approach we argue that educators must use the lessons of the last two years as well as draw on what we have learned from history and the social sciences By asking ourselves how we might interrogate and inform current social landscapes and the challenges that arise from them we have the opportunity to take leadership in fostering innovation building solidarity and reimagining the teaching and learning of history and the social sciences We recognize that humans live in multiple complex communities that include intersectional identities relationships with power agency and discourses and lived realities that are as unique as they are divergent Consequently the task of educators and the goal of this volume is to provide a clarion voice to a dynamic relational and undeniably human social world
