Mhlanga,Mufaro Dzingirai,2024-08-31 This book provides a broad and insightful guide to the economic social and  
environmental concerns seen within Africa It highlights the central economic challenges faced by African countries and  
outlines ways in which long term sustainable development in Africa can be achieved A particular focus is given to issues of  
poverty inequality and unemployment and how poor infrastructure limited healthcare and education and environmental  
deterioration are exacerbating these issues By looking at the limited effectiveness of traditional development initiatives a  
new framework for economic development is presented that focuses on community ownership and long term sustainability  
and which acknowledges the history of colonisation economic exploitation and political instability that has held Africa back in  
the past This book takes hope from countries within the Global South that have moved towards sustainable development and  
sets out ways in which other countries can follow them It will be relevant to students researchers and policymakers

examines the potential role of regional integration through the establishment of a common currency union and of other policy  
options that can enhance economic growth The authors suggest appropriate methods of coordination between  
macroeconomic policy and industrialization to achieve higher economic growth and also examine why pro poor strategies  
have not been successful The book underscores the challenges and opportunities that will arise from the structural change to  
the region s economies resulting from the necessary investment in manufacturing exports ICT and infrastructure which are

key vehicles for extended growth Readers will learn how the region can better reach its developmental goals by securing and perpetuating political liberty and transactional freedom for all its citizens

*Monetary Policy with a Convex Phillips Curve and Asymmetric Loss* Demosthenes N. Tambakis, 1998-02-01 Recent theoretical and empirical work has cast doubt on the hypotheses of a linear Phillips curve and a symmetric quadratic loss function underlying traditional thinking on monetary policy This paper analyzes the Barro Gordon optimal monetary policy problem under alternative loss functions including an asymmetric loss function corresponding to the opportunistic approach to disinflation when the Phillips curve is convex Numerical simulations are used to compare the implications of the alternative loss functions for equilibrium levels of inflation and unemployment For parameter estimates relevant to the United States the symmetric loss function dominates the asymmetric alternative
