

The Gnat

Paper airplane folding instructions by PAPERNAUTIC

01. Start with a rectangular sheet. Notebook size works, or use 3/4ths of a square.

02. Fold the rectangle in half along its length and unfold to form a crease.

03. Fold the two halves of the top edge down to the central crease to form a point.

04. Fold down the triangle formed along its base.

05. Fold the top right corner to the central crease, so that it touches the centre a little above the point of the triangle, as shown.

06. Repeat the same fold on the left side to make it symmetrical.

07. Fold up the base point of the triangle to seal in the two folded corners at the central crease.

08. Mountain fold along the central crease to reverse it.

09. Fold down a wing tip so that it is wider than the body, as shown.

10. This forms the top of the wings as shown here.

11. Flip over the model and repeat the wing fold for the other side to make it symmetrical.

11. Unfold the wings so that they are flat, with the body standing up from them, as shown here, and your Gnat paper plane is ready for flight!
