The Handbook of Dealing with Workplace Bullying Anne-Marie Quigg, 2016-03-03 The topic of workplace bullying and abuse gained considerable public and media attention during 2013 when the scandal of events at the BBC was unveiled following an enquiry led by Dinah Rose QC The Handbook of Dealing with Workplace Bullying edited by Dr Anne Marie Quigg presents the collective wisdom and knowledge of a number of lawyers management experts and academics from around the world The key themes include understanding the law in each country represented and the responsibilities of individuals as well as management teams and governors in organizations New case studies are supplied by people working with and within HR teams who have professional experience of dealing with the issue as well as practical suggestions that are of use to managers to people accused of bullying and also to people who find they are targets of bullying Dr Quigg summarizes the range and scope of the contributions by the individual contributors commenting on the research findings and professional experience that informs them The book thus reflects the variety of options for dealing with bullying that are relevant in different parts of the world and focuses on advice that is pertinent in real life rather than presenting a collection of academic theories

Perspectives on Bullying and Difference Colleen McLaughlin, Richard Byers, Caroline Oliver, 2012-03-19 Perspectives on Bullying and Difference gives voice to parents carers and young people and offers a snapshot of how schools teachers local authorities and other professionals try to deal with the problem of SEN and disability bullying It looks at several schools that are developing their own initiatives Perspectives on Bullying and Difference will show there is a great deal that can be done in schools right now to reduce the levels of bullying that these children and young people are experiencing solutions are closer than we may think

Preventing Bullying Through Science, Policy, and Practice National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Board on Children, Youth, and Families, Committee on the Biological and Psychosocial Effects of Peer Victimization: Lessons for Bullying Prevention, 2016-10-14 Bullying has long been tolerated as a rite of passage among children and adolescents There is an implication that individuals who are bullied must

have asked for this type of treatment or deserved it Sometimes even the child who is bullied begins to internalize this idea For many years there has been a general acceptance and collective shrug when it comes to a child or adolescent with greater social capital or power pushing around a child perceived as subordinate But bullying is not developmentally appropriate it should not be considered a normal part of the typical social grouping that occurs throughout a child s life Although bullying behavior endures through generations the milieu is changing Historically bullying has occurred at school the physical setting in which most of childhood is centered and the primary source for peer group formation In recent years however the physical setting is not the only place bullying is occurring Technology allows for an entirely new type of digital electronic aggression cyberbullying which takes place through chat rooms instant messaging social media and other forms of digital electronic communication Composition of peer groups shifting demographics changing societal norms and modern technology are contextual factors that must be considered to understand and effectively react to bullying in the United States Youth are embedded in multiple contexts and each of these contexts interacts with individual characteristics of youth in ways that either exacerbate or attenuate the association between these individual characteristics and bullying perpetration or victimization Recognizing that bullying behavior is a major public health problem that demands the concerted and coordinated time and attention of parents educators and school administrators health care providers policy makers families and others concerned with the care of children this report evaluates the state of the science on biological and psychosocial consequences of peer victimization and the risk and protective factors that either increase or decrease peer victimization behavior and consequences
