

## LOYALTY FROM A CONFUCIAN PERSPECTIVE

The text is considered to be amongst the most studied and widely read in Chinese community. It provides a developing account of the culture and perceptions of the different dimensions of life that the people see as fundamental in culturing of ethical and well-cultivated personalities. The author is an ardent ambassador of traditions of Zhou people in the court conduct and all spheres of life (Eno). The researcher studied the Zhou heritage and became knowledgeable, his intention being to re-establish societal norms to their previous virtues. He had a strong belief that a country's welfare relied on the values of its humans, starting foremost with its leadership. He had a strong assertion that people should cultivate virtues, honor for their neighbors and live responsibly by taking up roles that ensure societal development. The scholar therefore, established himself as a teacher, editor, and philosopher; teaching young people ethics, proper communication and demonstration of integrity in all matters of life; he trained literature, musical arts and ritual; issues he considered important to the culture.

He insisted that there was a need for a balance of studying and reflection playing a crucial role in the development of an individual. He had confidence when children were raised with the proper values then it would be easy for them to obey as adults. He is convinced that humanity only guarantees love and not hate, he, therefore, advises his followers to set their hearts on the kindness of humanity. Through his teachings, students were motivated in their innate abilities to become better to achieve the aspirations they have in their lives through hard work. Acts of valor were encouraged by young people in the community (Eno 78). Risks taken for a worthy cause were viewed as heroic and gestures to be celebrated in society (Eno 74). He tells Zilu "You's love of valor exceeds mine; there is nowhere to get the lumber" (Eno 19).

He believes that the state has the mandate to provide employment for all its citizens. Throughout the book, he encourages rulers to govern with virtue and align the inhabitants with the rituals of Zhou (Eno 5). He uses the leadership model of prime minister Yan Pingzhong as one that should be adopted by successive regimes, he is certain that leaders need to interact with the masses they lead to show respect (Eno 21). These sentiments are made at a time when warlords have taken the leadership of the state of Lu from the dukes. He describes Zichan as respectful, righteous, generous and reverent (Eno 21). To him, these were fundamental traits that people in positions of influence needed to have to ensure that they demonstrated ethics and virtues in their leadership. Teachings from him on good governance ensured that a society where rulers had respect for those ruled was created; dwellers in positions of power were expected to be just and to show ethics in their leadership.

**American Science in an Age of Anxiety** Jessica Wang, 2000-11-09 No professional group in the United States benefited more from World War II than the scientific community After the atomic bombings of Hiroshima and Nagasaki scientists enjoyed unprecedented public visibility and political influence as a new elite whose expertise now seemed critical to America's future But as the United States grew committed to Cold War conflict with the Soviet Union and the ideology of anticommunism came to dominate American politics scientists faced an increasingly vigorous regimen of security and loyalty clearances as well as the threat of intrusive investigations by the notorious House Committee on Un American Activities and other government bodies This book is the first major study of American scientists encounters with Cold War anticommunism in the decade after World War II By examining cases of individual scientists subjected to loyalty and security investigations the organizational response of the scientific community to political attacks and the relationships between Cold War ideology and postwar science policy Jessica Wang demonstrates the stifling effects of anticommunist ideology on the politics of science She exposes the deep divisions over the Cold War within the scientific community and provides a complex story of hard choices a community in crisis and roads not taken

*Born Along the Color Line* Eben Miller, 2012-02 This book chronicles the 1933 Amenia Conference in upstate New York which brought together a young group of African American activists who would shape the ongoing civil rights movement during the Depression World War II and beyond

**Southern Historical Society Papers** Southern

Historical Society,1915      **The Second Red Scare and the Unmaking of the New Deal Left** Landon R.Y. Storrs,2013

The loyalty investigations triggered by the Red Scare of the 1940s and 1950s marginalised many talented women and men who had entered government service during the Great Depression seeking to promote social democracy as a means to economic reform Their influence over New Deal policymaking and their alliances with progressive labour and consumer movements elicited a powerful reaction from conservatives who accused them of being subversives Landon Storrs draws on newly declassified records of the federal employee loyalty program created in response to fears that Communists were infiltrating the U S government to reveal how disloyalty charges were used to silence these New Dealers and discredit their policies Because loyalty investigators rarely distinguished between Communists and other leftists many noncommunist leftists were forced to leave government or deny their political views Storrs finds that loyalty defendants were more numerous at higher ranks of the civil service than previously thought and that many were women or men with accomplished leftist wives Uncovering a forceful left feminist presence in the New Deal she shows how opponents on the Right exploited popular hostility to powerful women and their effeminate spouses The loyalty program not only destroyed many promising careers it prohibited discussion of social democratic policy ideas in government circles narrowing the scope of political discourse to this day Through a gripping narrative based on remarkable new sources Storrs demonstrates how the Second Red Scare undermined the reform potential of the New Deal and crippled the American welfare state Jacket      **Unfriendly to Liberty** Christopher F. Minty,2023-05-15 In Unfriendly to Liberty Christopher F Minty explores the origins of loyalism in New York City between 1768 and 1776 and revises our understanding of the coming of the American Revolution Through detailed analyses of those who became loyalists Minty argues that would be loyalists came together long before Lexington and Concord to form an organized politically motivated and inclusive political group that was centered around the DeLancey faction Following the DeLanceys election to the New York Assembly in 1768 these men elite and nonelite championed an inclusive political economy that advanced the public good and they strongly protested Parliament s reorientation of the British Empire For New York loyalists it was local politics factions institutions and behaviors that governed their political activities in the build up to the American Revolution By focusing on political culture organization and patterns of allegiance Unfriendly to Liberty shows how the contending allegiances of loyalists and patriots were all but locked in place by 1775 when British troops marched out of Boston to seize caches of weapons in neighboring villages Indeed local political alignments that were formed in the imperial crises of the 1760s and 1770s provided a critical platform for the divide between loyalists and patriots in New York City Political and social disputes coming out of the Seven Years War more than republican radicalization in the 1770s forged the united force that would make New York City a center of loyalism throughout the American Revolution      Locomotive Engineers Journal ,1928      **Official Gazette of the United States Patent and Trademark Office** ,2007      Public Papers of Alfred E. Smith, Forty-seventh Governor of the State of New York, 1923-1928

New York (State). Governor (1923-1928 : Smith),1924      *Purpose and Cognition* David W. Carroll,2017-04-27 This book discusses the development of Edward Tolman's purposive behaviourism from the 1920s to the 1950s highlighting the tension between his references to cognitive processes and the dominant behaviourist trends It shows how Tolman incorporated concepts from European scholars including Egon Brunswik and the Gestalt psychologists to justify a more purposive form of behaviourism and how the theory evolved in response to the criticisms of his contemporaries The manuscript also discusses Tolman's political activities culminating in his role in the California loyalty oath controversy in the 1950s Tolman was involved in a number of progressive causes during his lifetime activities that drew the attention of both state legislators in California and the Federal Bureau of Investigation It treats Tolman's theoretical and political activities as emanating from the same source a desire to understand the learning process in a scientific manner and to apply these concepts to improve the human condition      **An American Dissenter** Kent Kreuter,Gretchen Kreuter,2021-12-14 In this biography of Algie Martin Simons a major figure in the Socialist party of America Kent and Gretchen Kreuter show the widely ranging social activities that brought Simons into touch with many of the movements and personalities of his time As a propagandist and historian Simons wrote the first thoroughgoing Marxist account of American history As a journalist he furnished Upton Sinclair with much of the material that he used in *The Jungle* and as a party politician Simons was a significant force in unifying the party in establishing the International Workers of the World IWW and in trying to make socialism an acceptable alternative for the American voter Although he broke with the party in 1917 Simons as a teacher and a writer on industrial relations continually struggled with the major problems that faced industrial society in the twentieth century
