

Essay On The Drug Abuse/Addiction And The Society

The excessive and unregulated use of drugs which is popularly called drug abuse or drug addiction has emerged as a major social problem recently and has crossed the border of caste, class, creed, sex and nation.

It is like curse for developing country like India as it has already existing problems like poverty, unemployment and overpopulation. Drug abuse affects individuals, their families and the society as a whole. Drug abuse often leads to crime as a result of reduced impulse control, paranoia and negligence. Thus, effects the law and order, economic production and human welfare.

Drug abuse implies physical dependence upon a drug including the development of tolerance and withdrawal. An addict who develops tolerance requires more and more of the drug to transport him to the world of fantasies. If the addict is not allowed to take the drug he suffers from painful and uncontrollable convulsions, vomiting, depression and various other maladies.

If one looks at the causes of the spread of this evil, the changes in the traditional pattern of society emerge as the major one. Rapid industrialization and urbanization have ushered in a new way of life with new values like individualism and permissiveness. This has resulted in loosening of informal means of social control, for example, influences of conventional sophistication but have low frustration tolerance. the stresses and strains of modern life with resulting frustration and depression give rise of escapist tendencies. Way to materialism and consumerism and the resulting alienation also ha a bearing on the present day trend. Anonymity of our big cities is providing a favorable environment of drug addicts.

Family has also shown changes in its structure and function recently. As a result parental control is less today because of the working situation of both parents. Break up of joint family also means less control over the young people. Stressful home environment and broken home are often the contributory factors. If a child's basic needs like security, response, recognition and development are not adequately met at home, he develops feelings of inadequacy, frustration and emotional insecurity. He seeks to derive satisfaction fro nay other sources and comes in contact with unscrupulous persons. Delinquent gangs or pear group fulfill various needs of a dissatisfied adolescent and provide rationalization to
