

responsibility paragraph

A responsibility is a duty or obligation of a man to do something or not to do something. As the inhabitants of society, we all have some particular responsibilities. We have to show our responsibilities to the family, society, country, and so on.

Our parents have brought us into this world and nourished us. As grateful children, we must take care of our parents in their old age. We should not do anything that pains them. We also have responsibilities to the other members of the family. As students, we should attend school regularly and listen to our teachers. We should also avoid doing anything that may disturb our classmates and teachers. As members of society, we have to show our responsibilities to the people around us.

Paragraph Of Responsibility:

Personal Responsibility and Individual Development for Everyone Act (PRIDE) United States. Congress. Senate. Committee on Finance, 2005 **The International Law Commission's Articles on State Responsibility** United Nations. International Law Commission, James Crawford, 2002 In 2001 the International Law Commission completed its work on State responsibility begun 40 years previously The Articles on Responsibility of States for Internationally Wrongful Acts marks a major step in the codification and progressive development of international law comparable in significance to the Vienna Convention on the Law of Treaties The Articles cover such topics as attributing conduct to the State defining when there has been a breach of international law and the excuses or justifications for breaches reparation for injustices the invocation of responsibility especially standing of States in the public interest and the rules relating to countermeasures The Articles develop basic concepts of international law in particular peremptory norms and obligations to the international community as a whole They signal definitively how international law has moved away from a purely bilateral conception of responsibility to accommodate categories of general public interest human rights the environment etc The Responsibility to Protect Jared Genser, Irwin Cotler, 2012 The Responsibility to Protect provides a comprehensive view on how this contemporary principle has developed and analyzes how to best apply it to current humanitarian crises **The International Law of Responsibility for Economic Crimes** Ndiba Kofele-Kale, 2016-03-03 Focusing on the problem of indigenous spoliation in developing countries this work explores the controversial issue of spoliation by national officials of the wealth of the states of which they are custodians Due to constraints of the state system and the lack of appropriate substantive municipal law efforts to punish those responsible for the economic rape of entire nations and to recover spoliated funds have been frustrated and rendered insubstantial Taking a multidisciplinary approach and on the basis of data generated from empirical cross national research this study makes the case for indigenous spoliation as a violation of international law Substantially revised and updated to take account of recent legal and political developments the second edition will be a valuable resource for academics practitioners NGOs and policymakers *Personal Responsibility, Work, and Family Promotion Act of 2002* United States. Congress. House. Committee on Ways and Means, 2002 *Providing for Consideration of H.R. 4, Personal Responsibility, Work, and Family Promotion Act of 2003* United States. Congress. House. Committee on Rules, 2003 Collective Responsibility and Accountability under International Law Shane Darcy, 2007-03-30 Collective Responsibility and Accountability under International Law examines the extent to which the basic principle of individual responsibility accommodates liability for the acts of others It examines the debates and legal developments surrounding collective responsibility under international law The philosophical debates on collective responsibility provide an introduction to the examination of whether collective responsibility is ever appropriate or even lawful under international law As the international criminal justice project begins to flourish it is of paramount importance that the extent of the potential liability

of individuals for the acts of others is clarified and held up to rigorous scrutiny It is of equal importance that there is a clear understanding of whether the means of responding to ongoing violations of international humanitarian law can include measures based on collective responsibility Global events have created an impetus for the parameters of responsibility to be clearly defined The rise of non State actors within the international legal regime raises complex questions surrounding their status power and the means for holding them accountable Published under the Transnational Publishers imprint

Allocating International Responsibility Between Member States and International Organisations Nikolaos Voulgaris, 2019-05-16 The ever growing interaction between member States and international organisations results all too often in situations of non conformity with international law eg peacekeeping operations international economic adjustment programmes counter terrorism sanctions Seven years after the finalisation of the International Law Commission's Articles on the Responsibility of International Organisations ARIO international law on the allocation of international responsibility between these actors still remains unsettled The confusion around the nature and normative calibre of the relevant rules the paucity of relevant international practice supporting them and the lack of a clear and principled framework for their elaboration impairs their application and restricts their ability to act as effective regulatory formulas This study aims to offer doctrinal clarity in this area of law and purports to serve as a point of reference for all those with a vested interest in the topic For the first time since the publication of the ARIO all international responsibility issues dealing with interactions between member States and international organisations are put together in one book under a common approach Structured around a systematisation of the interactions between these actors the study provides an analytical framework for the regulation of indirect responsibility scenarios Based on the ideas of the intellectual fathers of international law such as Scelle's doublement fonctionnel theory and Ago's derivative responsibility model the book employs old ideas to add original argumentation to a topic that has been dealt with extensively by recent commentators

International Responsibility Today Maurizio Ragazzi, 2005-05-01 The law of international responsibility a classic area of investigation in international law has been attracting an ever increasing interest in recent times as reflected also in the work of the International Law Commission on State responsibility and on responsibility of international organizations The exploration of current trends in this important area is therefore an appropriate and timely subject for a book in memory of Oscar Schachter a former United Nations official Columbia Law School professor ASIL President and international lawyer of world wide reputation who died in December 2003 The editor of the book has assembled a team of thirty six prominent international lawyers belonging to twenty different nationalities to write about different aspects of the law of international responsibility from general issues to specific areas of the law including responsibility before international courts and tribunals with respect to both the law of State responsibility and responsibility of international organizations and other non State actors The result of this effort is a monographic volume enriched by a biography and a list of publications of Oscar Schachter and accompanied by a bibliography of all the works

cited in the various contributions and an index for easier consultation which will be of interest not only to the many admirers and friends of Oscar Schachter around the world but also more broadly to international law academics and practitioners
