Conducting Research with Human Participants Nathan Durdella, 2022-02-15 Conducting Research with Human Participants: An IRB Guide for Students and Faculty by Nathan Durdella is the only guidebook students and faculty will need to navigate the IRB process and secure swift approval of research protocols. This book serves as an advisor to walk researchers through all the details of drafting submission and revision of materials for Institutional Review Boards so they can complete their research projects or dissertations faster. This text walks readers through the history of Institutional Review Boards, the contemporary context of ethical research strategies to effectively draft, submit, and revise an IRB protocol, and guidance on working with an approved protocol in the field. The latest updates to the Common Rule and other regulatory frameworks, including special protections for working with vulnerable groups, are covered throughout the text. Not every research project goes according to plan, so adverse events and reporting receive special coverage. A final chapter on ethical research practices beyond IRB compliance encourages researchers to think through how to exit the field of research and ensure their research benefits the individuals, families, and communities in which they work. Take the guesswork out of the IRB process from start to finish with this handy guide.

The PRISMAS Group Therapy Handbook Bruno Luiz Avelino Cardoso, Ana Clara Gomes Braga, 2025-05-31 This handbook presents and describes how to apply the PRISMAS Group Therapy, a brief intervention that combines Affirmative and Schema Therapy for Sexual and Gender Minorities (SGM). PRISMAS is a new therapeutic intervention that builds upon the concepts of Schema Therapy to create a brief group intervention aimed at helping SGM cope with the stress and prejudice they have internalized by living in societies that stigmatize and attack the LGBTQIA community. This intervention manual provides a detailed breakdown of the 12 therapeutic sessions in which the intervention is organized, showing practitioners how to conduct it. The PRISMAS Group Therapy Handbook: A Brief Intervention Integrating Affirmative and Schema Therapy for Sexual and Gender Minorities will be an invaluable resource for psychotherapists, clinical psychologists, and other mental health professionals working with Sexual and Gender Minorities. While Schema Therapy offers a broad range of applications, there remains a gap in understanding how its principles apply to minority groups, including LGBTQIA individuals. Bruno's work in this area is groundbreaking. His research on minority stress and the inner critic, oppressive sociocultural schema, and mode sheds light on how societal influences shape individual experiences, schemas, and modes. Wendy Behary, Former President of The International Society of Schema Therapy (ISST), Bruno, and Ana present a framework that is both sexual and gender affirming. It resonates across borders by addressing the shared experiences of minority stress, internalized oppression, and systemic barriers faced by SGM communities worldwide. By bridging societal oppression with individual healing, their approach fully leverages the integrative potential of Schema Therapy. Bruno and Ana's work is a gift to the field of psychotherapy.
