

REMANUFACTURING THE SAMSUNG ML-2250 TONER CARTRIDGE

By Mike Josiah

First released in July 2004, the Samsung ML2250 printers are based on a 22ppm, 1200dpi engine.

These cartridges are very similar to the ML1750, but there are differences. The main difference is that some of the ML1750 cartridges have a fuse to reset the printer. The ML2250 cartridges use a series of different chips. The actual ML2250 doesn't use anything but all the rest so far use a special chip. A chart below will list all the different variations.

These images show different views of the cartridge, basically the 2250 series are a bit flatter than other Samsungs.

These cartridges do not have a drum cover, and come new with a piece of heavy paper taped around the cartridge. All new cartridges opened so far have shown some toner leakage on the drum that would have shown on any prints.

Samsung Ml 2251np Printers Accessory Owners Manual
